DIAMONDS

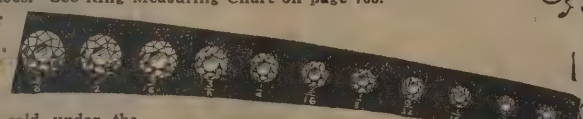
We Save You One-Fifth to One-Third
Over Prices Elsewhere

Weight for weight, grade for grade, we save you a large amount on each purchase. We do this because we import our own diamonds and pay cash for them. Our representatives have the choice of the stones offered in the great diamond markets of Amsterdam and Antwerp. They make their selection direct from stocks of the cutters, and benefit by the quantities purchased and the cash discount. This saving is passed along to you, together with the saving made by selling direct without jobbers or other middlemen. This and the fact that we sell for cash—no credit losses and no interest charges—enables us to quote the lowest prices in the world on high grade diamonds. The outstanding quality of our diamonds, the richness and correctness of our settings, gold (white or natural) and platinum; our expert diamond setters here on the premises, under the direct supervision of our diamond expert; each stone carefully and strongly set to bring out its greatest beauty; our honest and open method of doing business; our broad guarantee—these have won for us the patronage and confidence of thousands and thousands of customers.

What Is Desirable in a Diamond

A diamond is precious, a thing of beauty and an ornament. **First:** It should be very brilliant, with the maximum scintillating power possible for a stone of its size. **Second:** Its color—White is most desirable, because most commercial. **Third:** Perfection of cutting, round in proper portion, with all facets true and full number, so as to give the greatest refraction of light. **Fourth:** Freedom from conspicuous flaws, cracks and blemishes. **Regarding the ring mountings:** We illustrate here rings exaggerated in size so as to better show the beauty and perfection of the mounting, but, grouped with this enlarged drawing, we show also the true sizes of the rings in various views. See the following pages for full explanations regarding the grades of diamonds we sell. Any article on this page, wrapped, packed, ready for shipment, weighs about 4 ounces. **See Ring Measuring Chart on page 705.**

Relative Sizes of Unmounted Diamonds



Diamonds are sold under the metric system of weight adopted by the United States Government. **All Diamonds Shown on Pages 696 and 697 are our First Quality Diamonds.**

Diamond Certificate. With most diamonds quoted on this and the other pages, we send either our "A" or "B" certificate. Our "A" certificate, besides being a guarantee of quality and weight, guarantees that should you for any reason return the diamond within 3 days following the purchase, the full purchase price without question will be returned. Furthermore, that at any time within a year from date of purchase, you may return the diamond and have your purchase price refunded, less 10 per cent. Furthermore, that at any time within a year after buying a diamond from us, you may exchange it for any other diamond or article of jewelry at a higher price, by paying the difference, provided it is in its original setting. Presentation box sent with each ring.

Our Three Grades of Diamonds: Our purchases are made only to fill orders for first quality diamonds, but after purchasing, we take out those that do not quite measure up to our standard and sell them as our second or third grades.

Our First Quality: Especially selected, choice stones, perfectly cut of splendid color and brilliancy. These are the best selections from our imports. (On these pages we quote first, second and third quality.)

Our Second Quality: Very good stones, a shade less fine than our first quality. No one but an expert could tell the difference.

Our Third Quality: Good stones, well cut and brilliant. While not as good as our second quality, they are free from cracks, conspicuous flaws or spots and are guaranteed to give satisfaction.

Diamonds

Our "B" certificate, besides being a guarantee of quality and weight, guarantees at if, after wearing and comparing or having it valued or for any reason whatsoever, ou are not satisfied, any time within 30 days from the date of purchase, you may turn it and have your money refunded together with transportation charges. This ves you a long time to prove our statements and the value you have received by com- arison and expert advice. The certificate "B" that we send is made necessary ecause of the fancy mounting, and the cost of this mounting is a very considerable art of the whole.

Poor grade diamonds we do not sell nor handle. These grades are not always ound, lack brilliancy, many of them even have a milky appearance with no true glitter, utting not true to highest scientific principles, facets often being in different sizes and ot matching up properly. Poor diamonds are very often too thin or on the contrary o thick. This last fault is a double one since you pay for weight without results.

The illustrations on these and the previous two pages show our beautiful line of amond set jewelry, made of genuine platinum or solid white gold. Please under- and that white gold is made white simply by alloying. The purpose of white gold is to nitate a precious metal, platinum, which costs about six times the value of pure gold.

Where stated we send our strong guarantees. There are a few rings, a bracelet, brooch or two that we do not send our guarantee certificate with. The diamonds sed in these articles are very brilliant, regular cut gems, and weigh approximately 1½ r 2½ points apiece. The important part of these jewelry items, where no certificate given at all, is in the fancy stones, the gold, the designing and workmanship. How- ver, you have our general guarantee on these items the same as on any merchandise ustrated and quoted in this catalog, which is simply this: Your money will be promptly turned if you are not satisfied when you see the goods. Beautiful presentation cases company every diamond illustrated on this and the previous pages, appropriate r each item.

Festoon Necklaces

Fashion decrees a festoon necklace to complete her costume, if Milady wishes to be up to the minute with the latest Parisienne effects and style.

The beautiful assortment that we present represents selections from thousands of designs, as the most artistic, tasty, and the biggest value for the money.

The illustrations, somewhat reduced in size from the actual, show, as near as possible, the detail of each item.

Festoon necklaces all come in neat presentation boxes.

Shipping weight of all festoons, 4 ounces.

Only $3.00

Should make any young lady happy. Will match almost any costume. Massive in effect, gold plated, Roman yellow antique finish. Chain, 18 inches long. Pendant, 4 inches long. Blue sapphire color sets.

4F4001.....$3.00

Pearls and pink cameo in combination is certainly a pleasing grouping. The pearls are indestructible, small size, of rare luster and sheen. Length of necklace, 16 inches. Pendant set with genuine shell cameo surrounded with pearls. Length of pendant, 3 in.

4F4009.....$6.50

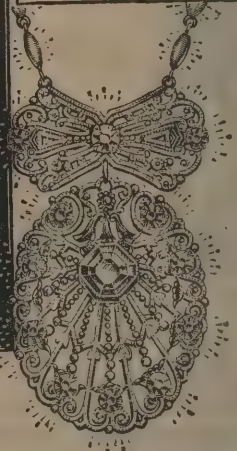
See our very latest genuine diamond set Festoon on page 698.

Very startling and elegant in effect. Selected with the idea of offering something unusually attractive. Very dainty. Gold plated, Roman yellow finish. Chain, 18 inches long. Pendant, 3 inches long, set with green jade color sets.

4F4005 $2.50

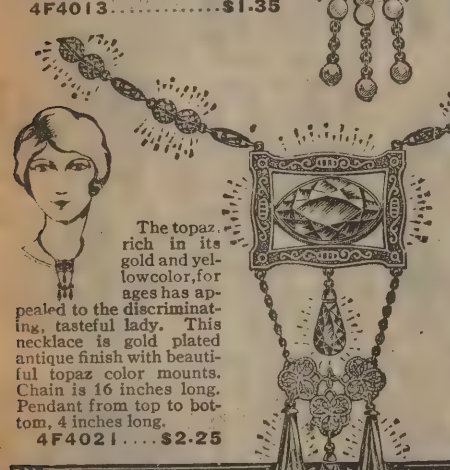
Many ladies of style favor the blue sapphire. This necklace is especially designed to go with the dainty summer frocks where blue is the predominating color. A new French creation. Necklace of soldered links is 15 inches long, set with white and blue indestructible pearls. The pendant, to match the chain, has sapphire color set, and white indestructible pearls. Length of pendant, 3¼ inches.

4F4013.....$1.35



An artistic design, gold plated, rich because of the many stones and antique effect. Unusually attractive. Length of necklace 16 inches. Pendant is 2½ inches long with topaz emerald and sapphire color sets.

4F4017 .....98c



The topaz, rich in its gold and yellowcolor, for ages has appealed to the discriminating, tasteful lady. This necklace is gold plated antique finish with beautiful topaz color mounts. Chain is 16 inches long. Pendant from top to bottom, 4 inches long.

Senorita Pearls

Senorita Pearls are solid and indestructible. They are of exceptional beauty and high luster. Even those at the lowest prices—our D grade—are wonderfully true reproductions.

We list **Senorita Pearls at various prices, according to quality** but, from the highest priced to the lowest, all are unusual values. The higher the cost, the more perfectly matched are the pearls and the higher the luster or sheen more closely imitating the true oriental. They are graded as A, B, C and D luster, the A being the highest quality and ranking with the finest imitation pearls made, which sell for a great deal more money than we ask. All pearls come in neat presentation box.

BIRTHDAY GIFTS THAT LAST MANY BIRTHDAYS

In choosing a birthday gift how gratifying it is to be sure of giving something that reflects unerring good taste, together with particular significance! Everyone is familiar with the birthstone traditionally linked to the month in which he or she was born. Delight your friends on their birthday with one of the beautiful rings shown here. A ring with the appropriate stone will form a lasting link in friendship—with the expression of loyal esteem that it conveys growing more mellow and more appreciated as years roll on. Some personal quality, such as sincerity, wisdom, courage, may particularly appeal to you in a friend. How pleased they'd be to receive a ring symbolic of that quality. Large illustrations of this ring show in detail the beautiful design.

RING SIZE CHART

How to get the size of your ring. It is very important when you order a finger ring from us that you send the correct size so that we can send you a ring that exactly fits your finger. We have worked out two methods, method "A" and method "B."

METHOD "A"—Procure a ring that fits the finger. Place it over the circle in the chart that it fits over, always considering inside measurements. The number of that circle is the size ring you will require. If one circle should be slightly larger than the inside of the ring which fits your finger, this indicates a size between the two. For example: If size 6 is a little small and size 7 just a little large, you will want size 6½.

METHOD "B"—If you cannot find a ring of the proper size, take a soft piece of copper wire or even a hairpin and twist it together to form a ring which will just pass over the middle joint of the ring finger. You can then determine the size, using this wire ring on the chart as described above or, if you wish, you may enclose this wire ring with your order, attaching it to the paper to prevent its being lost.

If you cannot determine your ring size by methods "A" or "B" given above, then send for our Cardboard Ring Measuring Chart before ordering.

Regarding the stones in our jewelry, where stones are described as ruby color or amethyst color, etc., these are fine imitations. Described as ruby doublets, sapphire doublets, etc., these are also fine imitations, made by joining a hard genuine crystal to the front of fine colored glass. The hard crystal front makes it impervious to scratches and wear. When genuine gems are used, they are so described. Ladies' rings furnished in sizes 5 to 10, misses' rings, 3 to 6, unless otherwise stated. **Do not fail to give size of ring wanted.** See Ring Measurement Chart on page 705. Rings showing engraving will be engraved without extra charge. **Mention letter wanted.**
Unless otherwise stated, all items described as solid gold are regular yellow color gold.

Diamond–Like Synthetic Sapphires

They wonderfully resemble diamonds—our White Synthetic Sapphires. They contain the same elements as the genuine sapphires; only experts can distinguish them from the mined stones. They are white, brilliant and very hard, and cut so as to resemble diamonds. See page 705 for Ring Measuring Instructions. All rings in neat presentation box.

Shipping weight of any ring on this page, 3 ounces.

Women's Rings

The rings shown on this page for Women's Rings, are generally used by diamond merchants. In other words, they are diamond mountings, in nearly every instance, duplicates of precious platinum rings, the very latest produced by great designers, lacy in effect, strong and substantially made. Each stone is set by our diamond setter on the premises.

Women's rings are furnished in sizes 5 to 10 unless otherwise stated. Men's rings furnished in sizes, 7 to 13. In ordering be sure to mention catalog number and size wanted. See page 705 for ring measuring instructions. Illustrations show exact sizes of rings.

Shpg wt. of any ring on this page, 3 oz.

All rings described as solid gold are regular yellow color gold unless otherwise stated.

Red Synthetic Rubies

The only difference between the genuine natural ruby found in India and our red synthetic ruby is that man has created this gem chemically and in the true pigeon blood color. This jewel is just as hard, just as brilliant as the priceless natural mined pigeon blood ruby.

Blue Synthetic Sapphires

Blue Synthetic Sapphires. This wonderful gem, in every way, chemically and otherwise, is the same as the costly, very precious oriental blue sapphire. Even great experts are sometimes puzzled to determine whether they are artificially made or created by Nature. However, they are synthetic, that is, chemically made.

A Better Pen Simply Cannot Be Made

Every Man Needs a Non-Breakable Pen.

No matter how careful you are, your fountain pen may occasionally slip from your fingers or you may leave it on your desk or table when heavy objects may be thoughtlessly tossed upon it. ***You don't have to worry if it is one of our unbreakable diamond point pens.*** We guarantee that you cannot break these superior pens. They are artistically made of a new unbreakable composition called ***"Inselite"*** which can neither ***bend, crack, nor break.*** You can stand on this pen, even throw it on a concrete sidewalk without harming it. The gold pen points are made to last a lifetime too. The tip is of hard iridium, one of the toughest metals known. No matter how long or how much you use this pen you will always have a fine writing device; we guarantee it against all defects from wear, defective material, or workmanship. The most discriminating buyer can pick a fountain pen from this page to meet his requirements in color, size, and pen point. Illustrations (except those of pen and pencil sets) show exact size of pens.

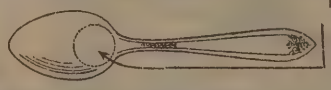
Guaranteed for 25 Years' Service Rogers

ROGERS SILVERWARE has been known for generations as the correct service—correct in design and complete table ensemble. Rogers stamped upon your service means that it is the silver tableware decreed by fashion as proper in every detail.

The popularity of Rogers Silverware is widespread. It is the ambition of every woman to possess a complete service of this famous silver tableware. To find it numbered among her gifts is the delight of every bride. And the prices quoted by Sears, Roebuck and Co. on Rogers nationally known silver service place it within the reach of all.

We handle those patterns which have proved most popular—Lincoln, Mt. Royal, Regent, Salem, Henley and La France. Patterns known throughout the United States and handled by the most exclusive jewelers are here for you and at prices about one-fourth lower than ordinarily asked. A well appointed table, one that will thrill you with pride at the pleased exclamations of your guests, is made possible for you. We buy large quantities, pay cash, and get a big discount—you pay cash and benefit by reduced prices.



There is an extra deposit of silver where the most wear comes on all staple spoons and forks. This reinforced plate increases the wear resistance many times.

Silverware

Guaranteed for 25 Years' Service

MOST of the tableware shown on these pages represents the very latest patterns created by the designers in the celebrated Rogers factory at Meriden, Conn. All are plated by their special process, which deposits an extra amount of silver on the points receiving the greatest amount of wear, such as the back of the bowls and the backs of forks, spoons, etc. Here the silver is of practically double thickness, assuring you of long years of useful service. All are plated on a substantial nickel base. Should the silver ever wear off it will not show an unsightly green or black spot.

Every Set Guaranteed

We guarantee every set and individual piece shown on these pages to give twenty-five years of satisfactory service—we will cheerfully and without question replace any piece that fails!

Compare Prices—Compare Designs

The designs we show are the latest, the most popular. Compare them with those handled by any well known jeweler in the country handling this exclusive silver tableware. Then compare the prices. **We save you substantial sums on precisely the same merchandise.**

$18.10
For 26-Piece Set with roll and tray with hollow handle knives
Silverware you will be proud to own. It is guaranteed to give 35 years of satisfactory service, because the blanks (that is the article itself) are made of high grade nickel metal, heavier, for instance, than the wares shown on pages 720 and 721. These high grade nickel forms are heavier silver plated and in addition have extra plating on such points as receive the most wear. This is known as sectional plate. Save one-fifth to one-fourth over prices elsewhere. Engraving script letters, 3c. Old English, 5c each.

A Real Family Treasure

There is a value in Rogers Sectional Silver Plate far greater than the term plated ordinarily implies. Rogers Sectional Silver Plate is heavier and more wear resisting and will wear beyond your fondest expectations. The twenty-six piece dinner sets listed below may be had with either solid or hollow handle knives and either style—with silver plated or stainless steel blades. Sets have complete service for six people—6 knives, 6 forks, 6 tablespoons (can be used for soup), 6 teaspoons, a sugar shell and a butter knife.

Oneida Community PAR PLATE
Guaranteed for 20 Years

The Par Plate brand illustrated on this page, manufactured by the great Oneida Community Silverware Co., is guaranteed by them for twenty years of satisfactory service. Their aim was to furnish beautiful silverware at a price so low that it would supply a great popular demand, yet produce a silverware that they could conscientiously recommend for durability, beauty of design, and excellence of finish.

Twenty years of actual service represents a generation of wear.

The two patterns: The Bridal Wreath and Vernon patterns, probably are the acme of perfection in silverware designing for these grades. At the bottom of this page, a special set is shown. Although the pattern is most beautiful, nevertheless, it was discontinued by them. Never before has such a remarkable offer been made. Read carefully the description and particularly examine the pattern shown, known as the Tuxedo.

We charge 3 cents each for engraving Script letters, and 5 cents each for engraving Old English letters. Regarding engraving initials: Our silverware is exactly as illustrated and described, but where engraved according to your instructions cannot be accepted for exchange or refund. However, our broad guarantee holds good should our merchandise prove different in any way than described and illustrated.

ONEIDA COMMUNITY PAR PLATE

Guaranteed 20 Years **EXTRA SPECIAL OFFER!** *Guaranteed 20 Years*

$8.25 for This Genuine Oneida Community Par Plate Silverware Set

Guaranteed for Twenty Years. Sold in 26-Piece Sets Only

If you want a special bargain, we have this wonderful Oneida Community Par Plate set to offer. The great Oneida Community decided to discontinue this particular pattern, their policy being quantity production and to throw all their energies on but two patterns. Therefore, they disposed of all the silverware of this pattern they had on hand to us, at a price. We are passing the largest part of the savings to you.

We bought only complete sets, therefore can only sell complete sets. Don't miss this opportunity. Even if you have no need of it for your personal use, it would pay you to buy it and lay it aside as a future gift for some loved one.

The set consists of six teaspoons, six tablespoons (used for soup or serving spoons), six forks, six solid handle knives, a sugar shell, and a butter knife, all regular full size and weight and all made to match. Shipping weight, about 5 pounds.

We can supply a splendid Canton flannel roll made to hold the pieces in separate pockets or a presentation case as illustrated, at the prices quoted. **In ordering please state catalog number.** Shipping weight, 8 pounds.

ALASKA SILVERLIKE TABLEWARE

Guaranteed to Give a Lifetime Service

Alaska Silverlike Metal Tableware Looks Like Silver

In color and appearance it is difficult to distinguish from solid silver. Yet Alaska Silverlike Metal Tableware contains no silver. It is not plated. It is made of the same metal throughout and, with ordinary use and care, will last a lifetime.

Like sterling silver, Alaska Silverlike Metal Tableware takes a high polish. It is easy to clean, but, like solid silver or silver plate, it should not be left in vinegar or foods which contain acid or salt.

GUARANTEE—We guarantee Alaska Silverlike Metal Tableware for the term of your natural lifetime. You make no mistake when you buy Alaska Silverlike Metal Tableware.

REGARDING ENGRAVING—We can engrave Old English at 5c per letter, Script at 3c per letter on all pieces. **Be sure to state letter and style of engraving wanted.**

We furnish these 28-Piece Tableware Sets in either pattern, with cloth lined box or roll, or without box or roll. Set consists of 6 teaspoons, 6 tablespoons, 6 knives, 6 forks, 1 sugar shell, 1 butter knife, 1 salt and pepper shaker. Shipping weight, without box or roll, 4 pounds; with box or roll, 6 pounds.

Alaska Extra Heavy Weight

PRUDENCE PATTERN

Regarding Engraving We can engrave Old English at 5c per letter; Script at 3c per letter.

The need for an extra heavy weight tableware induced us to have made this new pattern extra heavy weight Alaska Silverlike set.

The set consists of 26 pieces: 6 knives, 6 forks, 6 teaspoons, 6 tablespoons, a sugar shell and butter knife, all regulation size. You may order it with or without roll.

You can expect this tableware to last the term of your natural life. It is of the same white silverlike metal through and through. It will show only the slightest effects of wear.

The weight of metal is great in each piece. It cannot be bent or distorted in shape by severe use.

You can keep each piece clean by scouring it with any cleaning polish.

Restaurants, hotels and boarding house owners will find this ware ideal if long, continued hard service is demanded.

Alaska Silverlike Metal is easily kept clean, but it should not be left in vinegar or acids or salt for long periods of time; this is also true of solid silverware.

PEARL HANDLE FANCY TABLEWARE

Pearl Handle Fancy Tableware. To better serve our customers, we quote on this page two grades of Pearl Handle Tableware, A Grade and B Grade.

Our A Grade Pearl Handle is made of the more select pearl. The solid silver ferrules are made thicker. The article is more carefully finished, better in design, made for longer service.

Our B Grade Pearl Handle Tableware. Splendid in appearance, and will give good service. The same type of goods as is generally sold elsewhere for about one-fourth more than we ask. This particular line is very largely used for gift purposes. All pieces are of standard size, and are in neat paper box.

STERLING SILVER

Solid Silver Tableware

The fineness of solid silver is determined by the laws of the United States Government, which require 925/1000 fineness of solid silver which can then be stamped "Sterling." The sterling sold below conforms with these laws, and is the same as is sold in all the leading high class jewelry stores in the United States.

ENGRAVING. We charge 3 cents each for engraving Script letters and 5 cents each for engraving Old English letters.

The Alarm Clock With a Conscience

The first requisite in an alarm clock is absolute reliability. It must not—cannot fail.

The National Call has won its name as "the clock with a conscience," because of its unerring faithfulness. It is certain always to perform. Just set the alarm and you can rest in ease—free of worry—knowing that when the moment arrives, to the exact second, the gentle but imperative summons of The National Call will insist that you awaken.

From coast to coast its cheery "Good Morning" starts the daily punctual activity of thousands of families. It is the positive assurance of breakfast on time, work on time, school on time. It is as inevitable as the dawn itself.

This sturdy **eight-day clock** is built for lasting, dependable service. All it requires is that you wind it **only once a week.** It is the equal of any alarm clock made. Because of the tremendous volume of our business we offer this wonderful bargain to our customers at a price even lower than is ordinarily asked by others for common one-day clocks. The National Call is sold only by Sears, Roebuck and Co.

Let "the clock with a conscience" start your day right.

PERFECTION of the cabinet makers art is exemplified in these clocks of rich, dignified beauty. The artistocratic simplicity of line and design, the soft hand rubbed mahogany finish, permits them to fit most gracefully into the decorative and furnishing scheme of any room.

The mellowness of the dual chime or of the four-tone chime, the lingering softness of the cathedral gong, striking the hours and half hours, creates an atmosphere of culture and content.

Never before has utility been so skillfully blended with beauty. You will be proud indeed of the good taste reflected by the presence of one these clocks in your home.

Every clock shown on this page is an eight-day clock. Each one is either mahogany veneer or hand rubbed mahogany finish. Each has either the two-tone chime, the four-tone chime or the soft tone cathedral gong strike as specified. They all represent the very latest ideas in accepted clock designing.

Made in America

For many years the product of American clock makers has equaled and surpassed that of foreign manufacturers, both in beauty of construction and in mechanical accuracy.

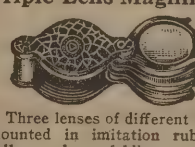
Microscopes and Magnifying Glasses

Magnifiers of high power are necessarily made with lenses of small diameters and short focal lengths. This gives a narrow field of view and ample working distance. The purchaser must choose between a low power with wide field and ample working distance or a high power with narrow field and short working distance. The choice will usually be governed by the character of the work for which the glass will be used, but consideration should also be given to the fact that magnifiers with large lenses and of low power are easier to use and generally prove more satisfactory to those who do not use a glass often enough to become expert.

Triple Lens Magnifier



Three lenses of different foci mounted in imitation rubber bellows shape folding pocket case. The lenses may be used singly or in various combinations, thus affording seven different magnifications. Diameters of lenses, ½, ⅝ and ¾ inch. Magnifying power, 7 to 30 times. Shipping weight, 3 oz.

Ben-Hur

By General Lew Wallace

The tender lilt of a love song mixed with the thundering, clashing cymbals of mad lust re-echo through and through this fascinating story of the time when Rome was arrogant mistress of the world—when old Egypt glowed like a smouldering flame in splendid decline—and the whole is softened and mellowed by the tender touch of the Christ, whose life and final supreme sacrifice is most dramatically told.

Long after the book is laid aside you will remember the tense, fierce atmosphere of the arena, the vivid description of the famous chariot race and the soul stirring scene of the crucifixion. Bound in cloth. 491 pages. Size, 5½x7½ inches.

10-Volume Set of the Works of Edgar Allan Poe

$2.25

Poe was the inventor of a school of fiction startling and weird. His tales of mystery, imagination and humor are the greatest ever written. Poe's works have met with universal popularity, not only with the English speaking people of the world, but by foreigners, and his wonderful tales have been translated into many languages. Poe is one of the most interesting of writers for he had the knack, or genius, of writing stories of such power that the average reader cannot lay one of them aside, after he has once started, until he has read to the end. No collection of books owned by an American is complete without a set of Poe. Bound in fine red linen cloth and embossed gold titles. Size of volume, 4x6¼ inches. Shipping weight, 5 lbs.

Learn Latest Dance Steps Easily

Dance Well and Be Popular

Learn All the Latest Steps

Get this marvelous, up to the minute book, "Dancing Made Easy," which will give you all the latest steps so simply explained that you can learn them easily in one evening. You don't need to take expensive lessons from some instructor. This remarkable book sets forth new steps that are being danced, with illustrations and diagram charts. It will teach you the **latest variations** of jazz, which, when danced properly, are pretty and graceful; the toddle, the camel walk, the canter, the pivot, the one-step, the fox-trot, two-step, waltz—in fact, all the up to the minute as well as the older established society dances.

Remember, too, that every dance is carefully explained with pictorial diagrams that make the dances so easy to learn from this book. 278 pages. Bound in cloth. Size, 5⅛x7½ inches. Shipping weight, 1 pound.

Should This Happen to You?

There are some persons who are never at ease before people. They are awkward, self conscious, fearful all the time that they will do something that is not right. These people are afraid to accept invitations because they don't know what to wear. They are afraid to go to receptions, balls, informal gatherings, because they do not know how to act. They have a haunting fear of making social blunders. They don't know how to acknowledge formal invitations, they do not know the social customs that every man and woman should know.

With the aid of **"Etiquette"** you need never be at a loss to know what to do on all occasions. This book will give you the key to what is proper to do, to write, to wear, to say, no matter where you are or what situation may arise. 388 pages. Cloth. Size, 5⅛x7½ inches. Shipping weight, 1 pound.

The World's Great Medical Book

By William A. Evans, M. D.

A friend in need is a friend indeed. Dr. Evans and his great book represent just such a friend. There is a time—an emergency—in every man's and woman's life when such a book as this is priceless. Such an emergency never gives you warning. Perhaps you or some member of your family will be suddenly stricken, of all times, in the dead of night; it may be hours before you can get a doctor. Perhaps you live miles from a railroad or town and no doctor is available. This great book may mean the difference between life and death.

In it nearly every known disease and ailment to which human beings are subject is frankly and ably discussed. The book contains thousands of questions asked Dr. Evans by thousands of people seeking the road to health, together with the answers by the physician. So varied are the topics covered that without doubt, the very question that you want to ask yourself or some one in your family is here, answered authoritatively in Dr. Evans' simple manner.

This great big book is printed in large, easily read type. Bound in cloth. Size, 10x7 in. It contains 1,040 pages and over 400 practical and helpful illustrations. Shipping weight, 3½ pounds.

Kewpie Kameras—Conley Made

"They Get the Picture"

We have reduced prices again! Our tremendous sales of cameras enable us to buy at even lower prices than before.

When you take a picture of the everyday things that happen, the baby who looks so cute playing with the pup, the big fish that nobody will believe you caught—with a Conley made camera, you will be assured of a clear, sharp picture; the kind of pictures that you have always wished for. If we knew of a camera maker whose product would serve our customers better, we surely would have bought their product. When you have a Conley camera, you have the acme of perfection in camera construction and execution.

Made with a rigid light weight wood frame of ebony finish hardwood, covered with black artificial leather, seal grain. Looks well and wears well. Equipped with two finders, one for horizontal and one for vertical pictures. **Shutter has two speeds, instantaneous and time,** which enables you to take pictures under all conditions. **Has four stops or diaphragms** for controlling the light on extremely bright days. The lens is a single achromatic lens especially developed for this camera. The film holder device is of rigid construction, and yet so simple that a child can load it. Illustrated instruction book and Conley photographic exposure guide included with each Kewpie Kamera.

Illustration showing simple construction of the reloading device.

Illustration of the four diaphragm stops or openings. These enable you to take pictures on dull days as well as bright.

Illustrates name on handle. Your name stamped in gold on handle of camera free.

Illustration of name plate placed on every one of our Kewpie Kameras.

When you see the name "Conley" on a camera, it is like having a guarantee of perfection.

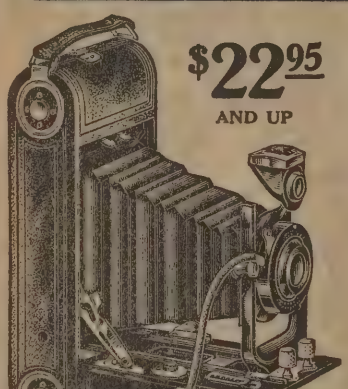
The Conley Special Camera



$22.95 AND UP

To those who want the best possible in a roll film hand camera, we recommend this model. Sturdy in construction, elegant in appearance, with high grade shutter and fast, sharp Luxar, anastigmat lens, it is especially fitted for those difficult conditions when the ordinary equipment fails. Every refinement necessary for good pictures is present.

The advantages of the anastigmat are crisp definition and perfect rendering of detail all over the negative. Pictures made with an anastigmat lens have a sharpness and brilliancy that the ordinary lenses do not give. The anastigmat negatives can be enlarged greatly without loss of definition because detail is rendered well.

Focusing is easily and satisfactorily taken care of by a new and positive focusing device. Artistically arranged pictures are made possible by the rising and falling front which allows the amount of foreground to be increased or decreased at will. Its compact case is covered with **genuine** leather. Metal parts in black enamel and nickel plate. Brilliant reversible view finder, two tripod sockets, real leather bellows, rising and falling front. Betax shutter, with accurate exposures of ⅛, 1/16, 1/40, 1/25, 1/100 seconds, bulb and time. Equipped with fast anastigmat lens F:7.5 insuring clear pictures under all possible conditions. Wire push release.

The Conley "Snap"

The easiest camera to get into action. Just pull out the front till it snaps into place and the camera is ready to take pictures. Strongly made with no complicated parts to get out of order. A good single lens set at universal focus makes judging of distances unnecessary. Point the camera and snap the lever, and the picture is taken. The Woolensak shutter with which this camera is equipped, will permit instantaneous or time exposures. The Snap takes a picture 2¼x3¼ inches. Two view finders. Extremely compact, measuring only 6x3¼x1⅛ inches. Camera is nicely covered with artificial leather, with all metal parts enameled in black, with all trim nickel plated, and makes a good appearance. Will fit easily in a coat pocket. The loading device is quick and easy to operate. Uses any standard make of roll film. The price we ask for this high grade folding camera is extremely low. Nothing on the market at the present time can compare with it. Shipping weight, 1¼ pounds.

$1.39 Citex Camera—Conley Made

If you wish to present a camera to your boy or girl, or to one who has little or no experience in taking pictures, you could not possibly be better served with a low priced camera. To take pictures with it, point the camera at the person or landscape to be photographed and press the lever. You do not have to focus this camera, as all objects up to within about 4 feet of the camera will be sharp. Pictures can be taken without any adjustment for light or shade, except on very dull days. The size of the picture is 2¼x3¼ inches, a very popular size. Neat in appearance with grain leatherette cover and a substantial carrying handle. Two view finders, for horizontal and vertical pictures. Simple reloading device. Size of camera, over all 5¾x3½x6 inches. Shipping wt. 2 pounds.

Conley Cameras Cameras of quality equal to the Conley regularly sell elsewhere for at least one-third more. Conley Roll Film Cameras are daylight loading, beautiful in design and finish, thoroughly practical and efficient marvels of compactness, yet are so complete in their equipment as to meet every essential requirement. Full instructions for operating. **The watch-like constructed shutters, the finders, lenses and other devices used in these splendid cameras, made in our own factory, cannot be excelled.** The lenses have been especially developed and adapted to the cameras on which they are used.

1. Single Achromatic Lens, F:16, with Wollensak Shutter which will take either snapshots or time exposures. This style of equipment is used on the No. 2 and 2A sizes.

2. Rapid Rectilinear Lens, F:8, with Wollensak Shutter which permits both time and instantaneous exposures. Has an adjustable diaphragm with five variations in opening: F:8, F:11, F:16, F:22 and F:32. This lens is twice as fast as the Single Achromatic and will permit a much greater latitude in light conditions. Shutter speeds, 1/25, 1/50, 1/100 second and time, except the No. 2 Conley, which has 1/25 second and time only.

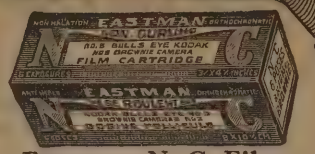
Photographic Film

Ansco Speedex Film

It Fits the Light. Even when inaccurately exposed, it gives the novice better negatives than he really has a right to expect and a higher average of success than he has had with ordinary films. The expert prefers Ansco Film because it yields perfect negatives; crisp, yet delicate; soft, yet brilliant. It is very fast, non-curling, orthochromatic, and free from halation.

When ordering film, measure the length of the empty spool in your camera. Spool lengths are stated for each style. As a further guide to the style you require note the maker's number as stated under the description of each kind. You will find this numbering both on the roll itself and on the carton. If you are not sure of the film number, tell us the name, model and size of your camera. We will send the correct film.

Both brands of film listed below may be used in Autographic Kodaks, but no record or title can be made on the film at the time of exposure except with Autographic Film.



Eastman N. C. Film

The film in the yellow box

A standard well known brand of recognized quality. This film has established a reputation throughout the world. It is non-curling, extremely rapid and free from halation. It is orthochromatic and will give good color values. It will yield clean negatives of good printing quality. Meets all the requirements for general all around photography, yielding crisp, snappy negatives of fine printing quality. Comes in all standard sizes to fit any camera.

Film Packs Adapters and Plates

Use Films in Your Plate Camera

By the use of a film pack adapter you can instantly convert any plate camera, up to the 5x7 size, into a daylight loading film camera. Instead of two exposures with a plate holder, a film pack adapter occupying no more space gives you twelve exposures without reloading camera. Each pack contains twelve films.

Agfa Film Packs are made in Germany and our tests show that they are by far the finest and fastest film packs on the market. In metal cans from which any single film can be removed without disturbing the remaining films. Speed 400 H and D.

Agfa Film Packs also fit film pack cameras without an adapter.

Darko Developing Papers

DARKO produces brilliant, pleasing prints, practically free from stain and fog, even with prolonged development.

DARKO Papers and Post Cards are usually printed by artificial light and developed and fixed much as a negative is. There are two grades—velvet or glossy surface.

The Glossy surface is very smooth and has a high polish. The Velvet surface is of a velvety texture, having a slight gloss.

All DARKO, except Darko Post Cards, is furnished in regular weight stock. The Post Cards come in double weight.
Order by catalog number and state size.

Red Label Papers and Post Cards

Contrast Emulsion for Soft Negatives

Red Label Darko will make good prints from negatives which are flat on account of underpower or overexposure and underdevelopment. It will make extra strong and contrasty prints from normal or hard negatives.

Order by catalog number.

The Biggest Suit Value Money Can Buy

Guarantee

Sears, Roebuck and Company Guarantee This Heavy Weight All Wool Worsted for One Full Year's Wear

$16.75

All Wool

We guarantee this suit to be made from genuine Hercules 18-ounce all wool worsted, preshrunk and fast color.

Strong

The strongly constructed front edges and unusually well tailored collar keeps the Hercules coat in correct shape until its last day of service.

Gibraltar

The coat is lined with genuine Gibraltar lining. Gibraltar cloth is a fine strong grade of mohair, famous for its wearing qualities.

Reinforced

Every seam is double stitched and carefully serged or taped to prevent pulling out. The trouser crotch and other points of wear are reinforced—extra strong.

Fit

The Hercules model is tailored to the lines of living men. Coat, vest and trousers fitcomfortably, as each suit is made by expert workmen.

Wear

We guarantee the cloth of this suit to wear satisfactorily for one full year from date of purchase.

Save

This suit represents an extra special value of the World's Largest Store. We believe it to be the best suit made in the United States for this price. And we guarantee that it will save you money.

MORE! VALUE WARMTH FRIENDS!

The World's Biggest Overcoat Value

Here is the pacemaker for the whole overcoat industry. It's the champion overcoat value of the World's Largest Store. It's without exception the greatest overcoat value we have ever been able to offer. Our continuous growth has given us increased buying power, and here it is plainly demonstrated.

Very large purchases from one of the largest mills, which makes only high grade overcoating fabrics, enable us to offer you this fine coat at this low price.

This is a big, dressy, burly, winter overcoat, made in the latest double breasted style, with half belt. Material is heavy weight all wool, in gray, blue or brown with overplaids of contrasting colors on the back of the cloth. The coat is carefully made and strongly sewed. Has wide facings and across the back is a deep yoke of self material. Sleeves are lined with good grade of Venetian; all seams piped; ivory buttons to match coat.

We guarantee it to please you and prove to be one of the best overcoat investments you ever made.

This overcoat is another reason for Sears leadership.

Names of COLORS Defined

The Color Names Used in Our Descriptions Are Alphabetically Arranged and Defined

HEN our grandmothers were young there were few color names as compared with what we have today. Now practically every season brings its new shades or new names, because color, even e than fabric, is used to portray the latest styles.

hile there are many changes and variations, there is little confu-, because after all, the names are largely descriptive, that is, they y a suggestion of the shade. Common objects such as names of nals, flowers, vegetation, the landscape or other features furnish most e suggestions for the new names. Tangerine, lipstick red, chocolate vn and reindeer tan readily bring to mind the shades represented.

In this catalog we list the newest shades as well as the widest rang of colors. The World's Largest Store gives you complete service bringing you the new shades as they are introduced.

About variations in shades. It is important to remember that dyes for the different shades do not produce exactly the same effect or tone in all the different materials. That is, a certain shade of color will not have just the same tone in silk, wool and cotton. Finish in fabrics also produces a difference in tone. A lustrous finish will not have the identical cast of color as the rough surfaced fabric.

Paint colors are not included in this list. See pages 995 and 996.

It's Easy to Order
FROM THE WORLD'S LARGEST STORE

WRITE IN ANY LANGUAGE. We can read it. There will be no delay on this account. You may use either pencil or ink, whichever is handy. It is better to use one of our order blanks which you will find in the back of this catalog. We will mail you more order blanks free on request. If at any time you have no order blank, it will be all right to use any plain paper. The suggestions on this page will help you to write up your order.

Name and Address

We like to have you write or print your name and address on your orders VERY PLAINLY. It enables us to avoid mistakes in addressing packages or letters.

Always Write Your Name the Same Way

For example, if your name is Richard T. Jones, write the first name, middle initial and last name every time just that way; or if you write it R. T. Jones, always write it that way. If you have no middle initial, please write the first name in full. This prevents the wrong delivery of mail where there is more than one family of the same name served by your postoffice.

The Family Should Order Under One Name

If possible, have all the members of the family order under **The Name of the Head of the Family.** This simplifies our records and prevents our sending more catalogs than your family needs.

If You Have Moved and Changed Your Address

If you have moved since you sent us your last order, be sure to give us your former complete address, as well as your new address. We will then correct our records so you will get your catalogs and other mail at your new address.

Necessary Information on Orders

Put down the number of each article you select; the names of the articles and the sizes and colors where necessary; and fill in the price.

How to Send Money

We require payment in full with orders. You are perfectly safe in sending payment since our guarantee protects you. If you are not satisfied with the goods you receive, we will exchange them for merchandise you want or return your money together with all transportation charges. You can send the money to us in any of the following ways:

1—Postoffice money order.
2—Express money order.
3—Bank draft.
4—Cash by registered mail.
5—Personal check.
6—By telegraph. Your order and money may be sent by telegraph when YOU ARE IN A SPECIAL HURRY. The telegraph company will arrange this for you. Be sure to give your complete address in your telegram.

If you live on a rural route you can give the letter containing your order and money to your carrier and he will buy a money order for you at the postoffice and enclose it in the envelope with your order and mail it to us. This is a ruling of the Postoffice Department and you are protected by the carrier's receipt which he will give you.

Shipping Information and Transportation Charges

All transportation charges are to be paid by our customers. In the description of each article in the catalog we give the approximate shipping weight.

Parcel Post

By adding up these weights and referring to page 798, you can tell what the postage will be. Add this amount to your order in case you are asking us to ship by parcel post. If too much is sent for postage, we will return the balance. **Do not send stamps for this purpose, but include the proper amount in your remittance.**

Freight

When goods are to be shipped by freight, it is best to pay your agent the charges when the shipment reaches you. If there is no freight agent at your shipping point, you should send additional money to prepay the freight charges. It is only necessary to prepay freight charges when there is no agent at your station. Charges are the same either way. When goods are shipped from a factory or warehouse you pay the freight from the town where the factory or warehouse is located instead of from Chicago.

Express

When goods are to be shipped by express and there is no agent at your railroad station, please tell us the nearest station at which there is an agent. Pick out the one where it will be most convenient for you to get the shipment and pay the charges.

See page 799 for express and freight rates.

Freight Is the Cheapest

Parcel post and express rates are low, but the cheapest way of shipping is by freight. While we welcome all orders, large or small, for parcel post, express or freight shipment, we find the biggest savings are made by our customers who plan their purchases in advance and order them all at once shipped by freight.

If You Order Goods Sent by Freight or Express Be Sure to Give Your Shipping Point If It Is Different From Your Postoffice

When You Do Not Tell Us How to Ship

In this case we will consider that you have left it to our judgment and we will ship your goods the way it will be to your best advantage.

Factory Shipments Are Prompt and Save You Money

We can save you money on some of our heavier and bulkier articles by shipping them direct from the various factories where they are made or from a warehouse. That saves freight and cartage to our store, double handling and other expenses. The descriptions tell you when goods are to be shipped from factory or warehouse. If you have any of these articles on your order, the fact THAT THEY WILL BE SHIPPED SEPARATELY should be considered in deciding whether the remainder of the order should be shipped by parcel post, express or freight. Of course, by far the greater part of our merchandise is shipped direct from our store.

We ship promptly from all our factories as they usually carry a large stock of finished articles. Shipments in most cases are ready to go as soon as orders arrive. There is practically no delay. Where extra time is required, our descriptions state it, or if a delay is necessary, you are promptly notified.

Come and See Us
When You Are in Chicago

Our store is on the west side of the city, at Homan Ave. and Arthington St., and is easily reached by elevated railroads and street cars, or by auto. Any officer or trainman will gladly direct you. If you come by auto, you can park your car here as we have a whole block of free parking space.

We will gladly show you through the Chicago Home of the World's Largest Store. You can also visit the studio of our Radio Broadcasting Station, W L S.

You will not be asked to purchase any goods, but if you wish to order while you are here you will be free to do so. At our retail store here you can buy over the counter and take your purchases with you if you so desire. Most of the articles shown in our catalog are on display.

IF YOU HAVE BUSINESS AT THE CHICAGO STOCK YARDS, be sure to drop in at our Stock Yard Office and Display Rooms in the Live Stock Record Building, 829 Exchange Avenue, and make yourself at home. These rooms are there for your convenience. Our attendants will be glad to furnish you information about our store or the city.

How to Return Goods
By Parcel Post, Express or Freight

If you ever have occasion to return any merchandise, we can give you **better service** if you follow these instructions:

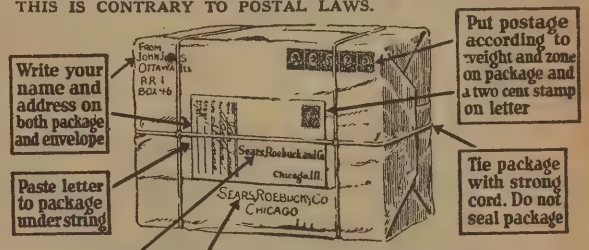
Please tell us WHY the goods you are returning are unsatisfactory. We ask this because, even though we have done so much to make every shipment please our customers, we are anxious to still further improve our merchandise and our service in any possible way. We will appreciate any suggestions from you. Don't just say, "The goods are unsatisfactory"; kindly give the reason also. WE GUARANTEE TO SATISFY YOU and if you give the REASON WHY you are not pleased it may help us to prevent similar faults in other shipments.

By PARCEL POST

If you return goods by parcel post, paste an envelope containing your letter and the bills to the outside of the package and put a 2-cent stamp on the envelope in addition to the postage on the package. In this way we will receive your letter and the package at the same time and can attend to your wishes promptly.

This Shows You How a Package Should be Wrapped and Addressed When Returning Goods to Us by Parcel Post

DO NOT ENCLOSE YOUR LETTER INSIDE THE PACKAGE AS THIS IS CONTRARY TO POSTAL LAWS.



Write your name and address on both package and envelope
Paste letter to package under string
Address both package and letter to us
Put postage according to weight and zone on package and a two cent stamp on letter
Tie package with strong cord. Do not seal package
SEARS ROEBUCK CO CHICAGO

Notice to Customers on Rural Routes —Postage on packages mailed on a rural route is 2c a package less than if mailed from a postoffice.

By EXPRESS

Packages which cannot be returned by parcel post and which are not heavy enough to move by freight should be packed securely, addressed to us and shipped by express. Your full name and address should also be placed on either the inside or outside of the package. Place the word "FROM" in front of your name. Your express agent will give you a receipt and this should be mailed to us at once, with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned be sure to tell us.

By FREIGHT

Before returning merchandise by freight please write us. We ask this so that we may tell you whether we want the goods sent to our store or to our factory. If we have asked you to return merchandise by freight see that it is packed securely and addressed to us. Your full name and address should also be placed on either the inside or outside of the package. Place the word "FROM" in front of your name. Your freight agent will give you a receipt and this should be mailed to us at once, with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned be sure to tell us.

As Close As Your Mail Box

Sears are as close to you as your mail box! Drop your order in the box, the postman collects it, and you receive the merchandise by mail, express or freight quickly. That is easy, and it is thrifty buying.

We Guarantee Safe Delivery of All Our Shipments

We will make good on any shipment that does not arrive in perfect condition.

It's Easy to Measure for Clothing

Our clothing is carefully made according to correct size standards. You do not need to order larger sizes than we specify. Our descriptions tell you the size range and you can order with the assurance that, if your size is listed, we guarantee the garment will fit you. Our sizes are obtained by securing the average of thousands of men, women and children in each size, and we believe are the most accurate standards in the country.

How to Take the Measurements

Stand in your natural way, breathe regularly and do not expand chest; also take everything bulky out of your pockets.

Chest. Take measurement over vest. Measure all around body at chest, close up under arms, snug but not tight. Tape measure should be over shoulder blades at the back. See line marked A on Figure 1.

Waist. If you wear a belt, take it off and take your measure over pants all around body at waist. Your waistline is just above hip bones. Feel sides for location of hip bones. See line marked B on Figure 2.

Inseam. This is to show length of pants leg. Stand straight and draw pants well up in crotch. Measure from close up in crotch to bottom of trousers, at length desired. See line marked C on Figure 2. For cuff bottom pants measure 1 inch shorter than for regular pants.

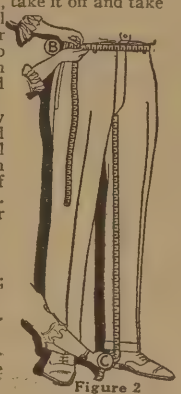

Figure 2

What Measurements to Give in Your Order

Suits. Give chest and waist measures and length of inseam; also height, weight and age.

Coats of All Kinds, Jackets, Raincoats and Overcoats. State chest measure; also height, weight and age.

Vests. Give chest and waist sizes; also height, weight and age.

Pants (Both Dress and Work Pants) and Overalls. Give waist size and length of inseam; also height, weight and age.

Women's, Misses' and Junior Clothing

How to Take the Measurements

Bust. Take measurement over dress or blouse. Measure all around the body at bust, close up under arms and well over shoulder blades at back. See that tape measure in front is directly across fullest part of bust. See line marked E on Figure 3.

Waist. Take this measurement over dress or blouse. Measure all around body at waist at smallest part. See line marked F on Figure 3.

Hip. Measure all around body 6½ inches below the smallest part of waist. See line marked H on Figure 3.

Back Length. Measure from base of neck at back down back to length desired. See N to L on Figure 4.

Front Length. Measure from waistline down front to length desired.

What Measurements to Give in Your Order

Dresses. Give bust, waist and hip sizes; also front length of skirt.
Suits. State bust, waist and hip sizes; also front length of skirt.
Coats, Fur Coats and Raincoats. Give bust measure.
Waists or Blouses. Give bust size.
Skirts. Give waist and hip sizes; also front length of skirt.
Dressing Sacques, Kimonos and Bathrobes. Give bust size.

Use the order blank on other side. Just give the sizes necessary for each garment you order and take the measurements according to the simple directions here. This page makes it very easy for you to tell what sizes to give and how to take the measurements. You take no risk.

Sweaters

A roomy sweater will give better service. Your proper sweater size is 2 inches larger than actual measure.

Women's Sweaters: Measure all around body at bust over blouse or dress. To your actual bust measure add 2 inches. For example, if your actual bust measure is 38 inches, order size 40 sweater.

Men's Sweaters: Take measurement around body at chest over vest and order sweater 2 inches larger than your chest measure. For example, if your chest measure is 40 inches, order size 42.

For children's and misses' sweaters, give age size.

Hats and Caps

Men's and Boys' Hats and Caps. Measure all around head, as illustrated; then refer to the table below.

Boys' and Girls' Clothing

GIVE AGE SIZE. To find AGE SIZE, take the boy's or girl's chest measure, then consult boys' or girls' scale of sizes below.

Before ordering a boys' or girls' garment it is necessary to know the chest measure in order to know the proper AGE SIZE to order, as boys of the same age will vary very greatly in size, and the same with girls. For example, a boy only 10 years of age may be as large as the average boy of 12; or, on the other hand, he may be as small as the average boy of 9 years. Girls of the same age also vary in size. The size scales herewith show the average chest measure of boys and girls of each age. These have been compiled from the measurements of many thousands of boys and girls of each age.

HOW TO MEASURE CHEST. **For a boy,** see "D" on Figure 5. Measure all around body at chest over his shirt or blouse. **For a girl,** see "L" on Figure 6. Measure all around body at chest over her dress or blouse. In either case, see that the tape measure is well up under arms, and that it is over shoulder blades at the back. After you have the measurement, see boys' or girls' scale to find what age size to order.

Knee Pants, Suits, Overcoats, Raincoats, Mackinaw Coats, Blouses and Underwear

How to Use Size Scale

For example: If your boy's chest measure is 24 inches, order age size 5, or if your boy's chest measure is 30¼ inches, order age size 14.

In case your boy's chest measure is between two of the measurements given below, order the age size for the next larger chest measure.

For example: If your boy's chest measure is 28½ inches, order age size 13.

Boys' Long Trousers and Long Trousers Suits

For suits, measure boy's chest, waist and inseam; for trousers, waist and inseam only. Our boys' long trousers and long trousers suits are sold according to age size. The table shows you the measurements of the different age sizes. For example, if your boy's chest measure is 27 inches, waist measure 26 inches and inseam 22½ inches, order size 10.

If you find that your boy's measurements do not agree with age sizes given in the table, send us the boy's chest, waist and inseam measurements, state height and weight and we will guarantee to send a garment that will fit him perfectly.

24-HOUR SERVICE

At the World's Largest Store

Packages Up to 8 Ounces in Weight

are carried at the rate of 1½ cents for each 2 ounces regardless of distance. Packages over 8 ounces are charged for by the pound.

Books

All books consisting of 24 or more pages, up to and including 8 ounces in weight, will be carried at the rate of 1 cent for each 2 ounces to any part of the United States, regardless of distance. All books over 8 ounces in weight will take the regular parcel post rates, according to weight and zone.

Always Send Additional Money to Pay Postage

as charges for parcel post shipments must be paid in advance. DO NOT SEND STAMPS but just add the amount for postage to the cost of the merchandise and include it in your remittance. We always return any money left over if you send too much.

The Shipping Weight Is Given

in the description of each article. Occasionally, according to the nature of the merchandise, we are obliged to give the actual weight. In such cases a few ounces extra in weight must be allowed for wrapping and packing, according to the kind of goods.

Limit in Weight

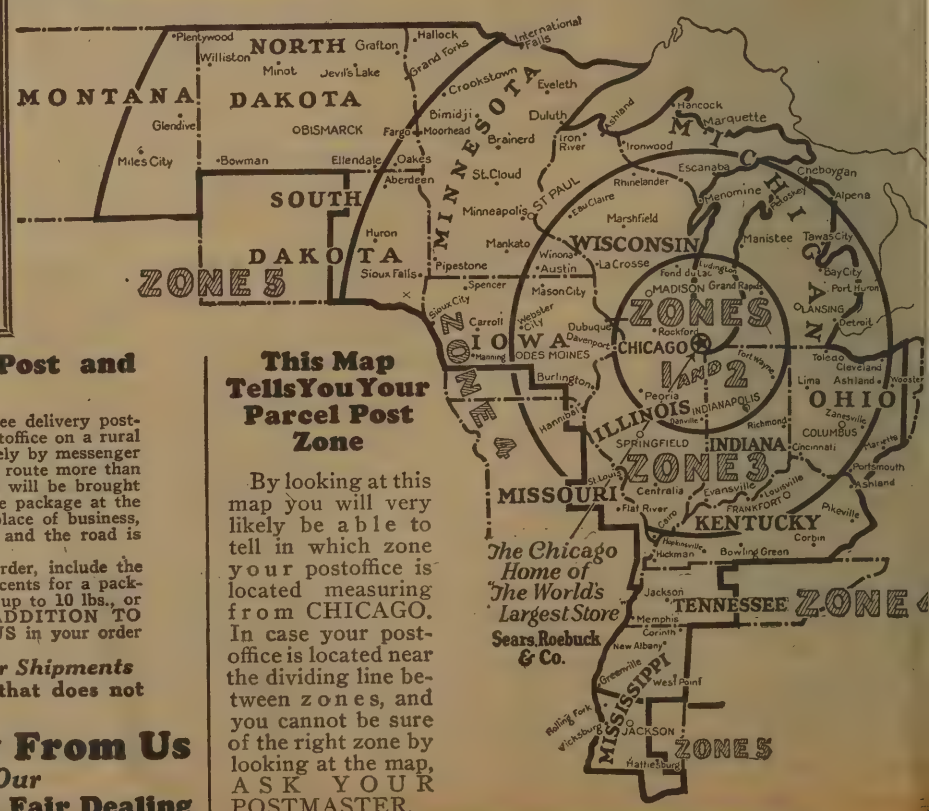
Within local zone and zones 1, 2 and 3, packages up to 70 pounds in weight are carried. The limit for all other zones is 50 pounds.

Limit in Size

Articles measuring more than 7 feet in length and girth combined cannot be shipped by parcel post.

Explosives, Inflammable Articles and Poisons can not be shipped by parcel post.

For Any Other Information Regarding Rates or Other Parcel Post Matters Ask Your Postmaster.



This Map Tells You Your Parcel Post Zone

By looking at this map you will very likely be able to tell in which zone your postoffice is located measuring from CHICAGO. In case your postoffice is located near the dividing line between zones, and you cannot be sure of the right zone by looking at the map, ASK YOUR POSTMASTER.

Special Delivery for Parcel Post and Charges for It

If you live within the carrier-delivery limit of a free delivery postoffice such as towns have, or within a mile of the postoffice on a rural route, you can have your package delivered immediately by messenger on its arrival at your postoffice. If you live on a rural route more than a mile from the postoffice, a special delivery package will be brought out by the carrier on his first trip after receipt of the package at the postoffice and will be delivered at your dwelling or place of business, if it is not more than one-half mile from the route and the road is passable.

If you want this special delivery service on any order, include the following extra money in your remittance: Send 10 cents for a package up to 2 lbs., 15 cents for a package over 2 lbs., up to 10 lbs., or 20 cents for a package more than 10 lbs. IN ADDITION TO REGULAR POSTAGE. Also be sure to TELL US in your order that this extra money is for special delivery.

We Guarantee Safe Delivery on All Our Shipments

We will make good on any shipment that does not arrive in perfect condition.

Freight and Express Rates From Chicago

Below is a table showing the freight and express rates per 100 pounds on goods shipped from Chicago to a number of cities in each state, these cities being used as a basis for figuring rates for other towns located in the same part of the state.

How to Figure Freight Charges. Please consult the following table of rates, referring also to the classification of merchandise, and you will be able to determine easily, almost exactly, what the charges will amount to on any goods. If your station is not named in this table, the rate to your station will be the same or a few cents per 100 pounds more or less than the rate to the nearest city named. You can obtain the exact rates from your agent.

How to Save on Freight Charges. In having goods shipped by freight, it pays you to make up an order of 100 pounds or more, because railroad companies charge as much for a shipment weighing less than 100 pounds as they do for one weighing 100 pounds.

If there is no freight agent at your shipping point, you must include sufficient money to prepay freight charges. If there is an agent, you pay the freight charges when shipment reaches you. When you leave the method of shipment to us, we always choose the cheapest.

How to Figure Express Charges. First estimate the weight of goods you are ordering; then find the rate per 100 pounds by express to your nearest city in the table of rates below; then consult the Scale of Express Charges, following the line for the weight of your goods to the column headed by your express rate per 100 pounds, and the amount shown will be the express charges.

If the exact rate per 100 pounds to your town is not shown, take the rate shown for the town nearest to you and the express charges will be about the same as to your town.

Classification of Merchandise for Freight Shipments

You will notice in the Freight Table below there are four different rates quoted to each city, **first class, second class, third class and fourth class.** This is because the railroad companies base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rates which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different classes of rates.

High Speed Wizard

Here is the most popular hand operated dolly type washing machine on the market. There are thousands of these machines in use, giving perfect satisfaction year in and year out. The High Speed Wizard will wash your clothes easily and clean, and will give excellent service. The gearing of the High Speed Wizard is the result of years of experimenting by washing machine specialists. The drive wheel operates on roller bearings. The result is a hand power washing machine that requires very little effort to keep in operation.

You will find the construction and material of this washing machine far superior to ordinary washers of this type that sell elsewhere for far more than our low price. All parts are much heavier than those used in ordinary washing machines. The wood used in the manufacture of this washer is specially selected stock. It is a quality machine throughout. You will find, like thousands of our customers have, that the High Speed Wizard is built to give lasting satisfaction.

The handle socket is so arranged that you can operate the machine standing up or sitting down. That tired and wornout feeling that usually accompanies wash day is eliminated by the use of the High Speed Wizard. Send us your order, together with our very low price, today and your next wash day will be a pleasure.

Shipped from CHICAGO, PHILADELPHIA or RICHMOND, VA., whichever is nearest you. Shipping weight, 115 pounds.

Tested! and Proved Superior Side by Side on the Same Kind of Clothes

A Startling Comparison of Interest to Every Household

The Allen

The most convincing proof in the world of the Allen's superiority over other washing machines is offered to you right here on this page.

Running side by side with a nationally advertised machine costing more than twice as much, the Allen, with clothes, water, soap, power and all conditions exactly alike, did quicker and cleaner work **and did it more economically.**

This test was conducted by an impartial person. A dealer, handling the higher priced machine wanted one of our customers, who already owned an Allen, to trade it in as part payment on the nationally advertised washer. Before accepting the offer our customer tried out the new machine alongside the Allen with the above results. **So our customer decided to keep the reliable Allen.**

Could you, could anyone, ask for a stronger testimonial of the Allen's outstanding superiority than that! And the Allen, unlike most washing machines, is priced so low that it is within the reach of everyone. It is the most economical **GOOD** machine on the market. No one need slave over a steaming tub; no one need invite ill health and premature old age when this high grade efficient machine can be purchased for so low a price.

The Liberty

Those who prefer an oscillating type washer will find it, perfected to the maximum degree, in our Liberty Electric. This machine, like the Allen, is the product of years of experience in the washing machine business—years of intensive research work by washing machine experts. All improvements are incorporated in it.

The Liberty Machine, with its rapid oscillation, forces water and suds through every inch of clothing, insuring utmost cleanliness at minimum consumption of power, time and effort.

With one of these machines in your home, your washday problems are definitely settled. All you have to do is press the button and the Liberty will do the work, do it perfectly and thoroughly, without harm to the articles being washed, whether they are fabrics of delicate daintiness or big heavy woolen blankets.

Whichever type you like best, whether you choose the Liberty or the Allen, you are certain of an absolutely reliable and efficient washer, one that will always give 100 per cent satisfaction—and one that **you could not duplicate without paying twice as much.**

Sears, Roebuck and Co.,

Dear Sirs: It is a pleasure to write you at this time about our new Allen. We want you to know we are more than satisfied with it. After having tried several electric washers at prices from $70.00 to $165.00 and having, we feel, given them all just and impartial trial, we have chosen the Allen because it competes in every way, so far as washing qualifications are concerned, with those we have tried, at a saving of $83.00 to me. Your Allen has done for us just what you claimed it would do and we are glad now that we gave it a consideration. We again thank you for your confidence in us in permitting us to use this washer four weeks, and you can use our name as reference should you care to.

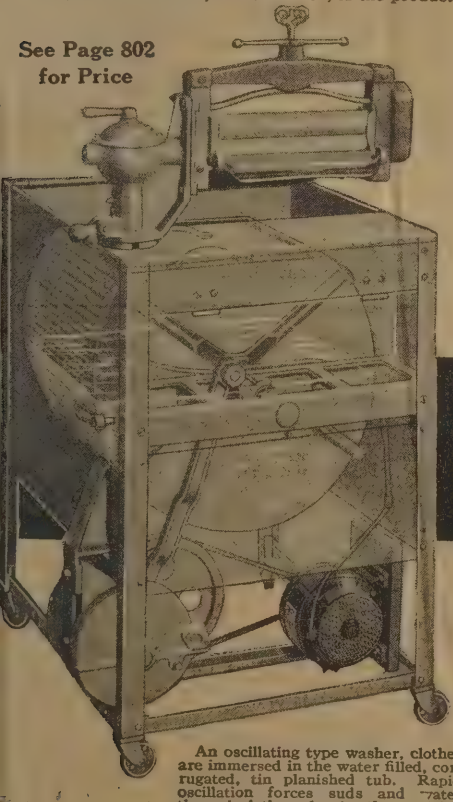
Very truly yours,
MR. and MRS. W. H. POLLARD.

Take Advantage of Our Easy Payment Plan

You don't have to pay cash for the Allen or the Liberty. Just a small payment with your order and we'll send your machine immediately. Don't deprive yourself another day of the hours of leisure, the freedom from strength and temper taxing labor over an unhealthful steaming tub, when a few dollars will bring you either one of these big, fine looking, efficient washing machines. You'll find it the best investment you ever made, cleaner clothes with practically no work, in less than half the time required the old way, all for a few cents a day.

You'll agree that the Allen or the Liberty actually pays for itself in time and strength saved.

See Page 802 for Price



An oscillating type washer, clothes are immersed in the water filled, corrugated, tin planished tub. Rapid oscillation forces suds and water through clothes, cleaning them quickly and thoroughly

The LIBERTY

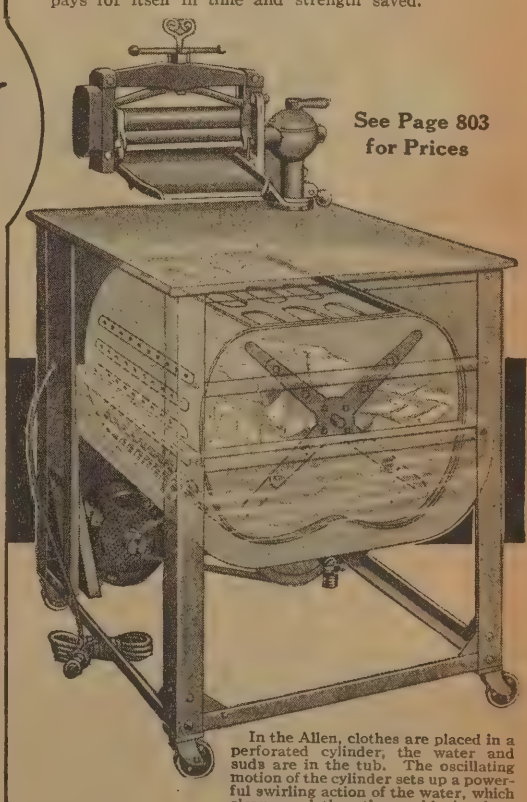
ALLEN and LIBERTY Features

1. ALL METAL BODY. Strong body construction with heavy angle steel frame. Fitted with large, strong casters enabling anyone to move the machine with the least possible effort.

2. WRINGER. Motor driven, full size 12-inch rolls, metal swinging wringer. Fitted with positive safety device. Soft rubber rolls are used. They turn either forward or backward so you can wring from either side.

3. POWER UNIT. The new features of our power unit eliminate bother and inconvenience for you. All gears are enclosed, very few moving parts, self lubricating. Just oil or grease every two or three years. The large ¼ horse-power motor is practically splashproof, requires only a few drops of oil every two or three months. Nothing to get out of order, simple and easy to operate, just press the button. Operates washer and wringer at the same time when desired.

See Page 803 for Prices



In the Allen, clothes are placed in a perforated cylinder, the water and suds are in the tub. The oscillating motion of the cylinder sets up a powerful swirling action of the water, which cleanses clothes thoroughly in short time.

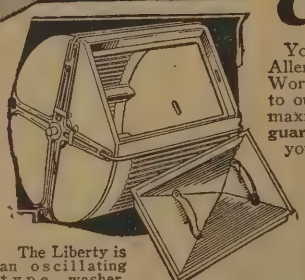
Features of the LIBERTY

FRAME. Sturdy and substantial angle iron construction, painted in battleship gray. Fitted with large, strong casters, enabling anyone to move the machine with the least possible effort.

WRINGER. Motor driven, full size 12-inch rolls, **all metal** swinging wringer. The soft elastic rubber rolls are the most efficient rolls ever made for wringing the most water from the clothes. Detailed description is given at the right.

TUB. Solid copper, corrugated, heavily tin planished on the inside; painted on the outside. Large six-sheet capacity Oscillates rapidly, forcing the water and suds through the clothes at every backward and forward motion. Water rushes from front to back, washing every particle of dirt from the clothes. In ten to fifteen minutes a big tubful of clothes is clean; much cleaner than you could get them with the ordinary washer. There is nothing in the tub to rub, drag or injure the clothes. When through washing, simply drain the water through the drain cock and wipe the inside, and the machine is ready for the next week's washing.



The Liberty is an oscillating type washer. Clothes are placed directly in tub, which is corrugated and heavily tin planished on inside. The oscillating motion forces water through clothes until thoroughly cleansed.

OPERATION. There is nothing complicated about the operation of the Liberty. It is so simple any child could run it. No mechanical knowledge whatsoever is required. After you have removed the lid of the tub, poured in the water, added the soap and inserted the clothes, fasten the lid back in place and turn the switch. The motor does all the work, rocking the tub rapidly back and forth. No better or easier way of washing clothes than this tried and proved way has ever been discovered. There is nothing to get out of order, no fancy, expensive, troublesome parts to require attention. You will be delighted with the simplicity, the sturdiness and the efficiency of the Liberty.

MOTOR. Before ordering be sure to read motor description on opposite page.

When writing your order, **be sure to mention whether you use direct or alternating current, and the voltage and cycles.** This information will be found on your electric meter.

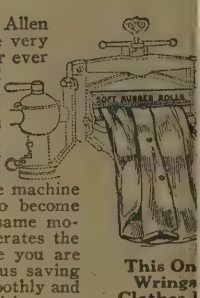
Soft Rubber Rolls Are the Best



Both the Liberty and the Allen Washers are equipped with the very latest and most efficient wringer ever devised. This is the all metal wringer on which every part except the rolls is made of wear resisting steel. All the metal is galvanized before it is enameled. This is a special precaution we take to prevent rust. It is sure to last as long as the life of the machine itself, for there is no wood to become waterlogged and to rot. The same motor that drives the machine operates the wringer, and will do this while you are washing a tubful of clothes, thus saving considerable time. It works smoothly and silently, and swings to any position necessary.

This On Wringe Clothes

A noteworthy feature of this wringer is the fam 12-inch elastic soft rubber rolls. Note how the press of the springs always holds the rolls together, in sp of buttons and uneven gathering of clothes, forcing the maximum amount of water. **Yet buttons are broken** as with the old, hard rubber rolls, which separ and permit clothes to retain a large amount of wat You can wring from either side, as the rolls turn ba ward or forward. Wringer is fitted with a positive saf device. The moment the lever is tripped the rolls released.

Satisfied Customers

The letter below is typical of thousands we have received from Liberty and Allen owners, expressing complete satisfaction with their purchases.

Sears, Roebuck and Co.

Gentlemen:

To convince myself and the women folks of our household about the efficiency of the Allen Electric Washing Machine, I placed it side by side with a washer of another make costing twice as much.

Not only did the Allen wash the clothes just as clean as the machine costing double its price, but in some respects was even superior. I believe this is most remarkable, in view of the fact that the other manufacturer asks just **twice** as much money.

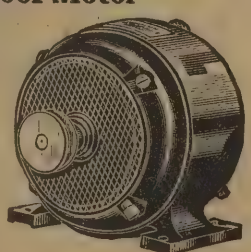
Moreover, we found that the rolls used in your new type metal wringer are superior to those of the more expensive machine. Still another point of superiority is the smaller amount of current that the Allen uses, although both makes of machines are equipped with a ¼ horse-power motor.

Needless to say we are more than satisfied with the Allen, both with the operation, with the way it washes clothes and, of course, with the saving. We recommend it to any household as a great labor saver and a convenience that no one should be without.

Respectfully,

S. R. WILDERMUTH, Route 4, Akron, Ind.

Splashproof Motor

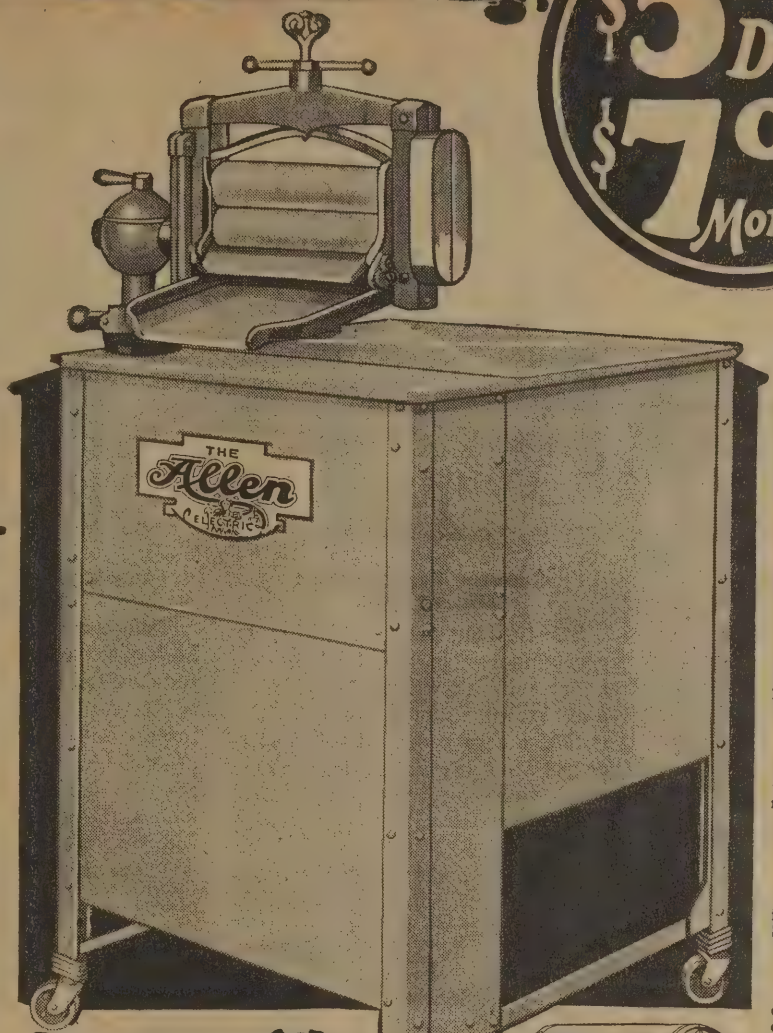


The very best obtainable splashproof motor is used on the Liberty and Allen Washers. Manufactured specially for washing machine use by one of the oldest and largest manufacturers of fractional horsepower motors in America. An exceptionally high grade motor that is not subject to damage or injury when water is carelessly splashed or spilled on it. The thorough waterproof construction protects at all times the parts that are liable to damage or injury from water. Designed with sufficient capacity to drive both the washer and wringer at the same time, without danger of overloading the motor. Absolutely trouble-proof, full capacity ¼ horse-power motor.

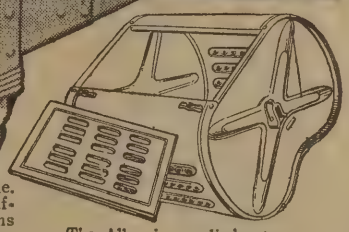
Special Voltage Motors

If the electric current supplied to you is different than the standard 105 to 115 volts, 60 cycle alternating current, it is necessary to charge more for the washing machine, because the motor manufacturers make an extra charge for these special voltage motors.

When writing your order, **be sure to mention whether you use direct or alternating current, and the voltage and cycles.** This information will be found on your electric meter.



Features of the ALLEN



The Allen is a cylinder type machine. The clothes are placed in perforated cylinder, which in turn is placed in the tub of soap and water. The oscillating action then forces water through clothes, thoroughly cleansing them.

SIMPLICITY. The Allen is one of the sturdiest and most efficient, yet simplest electric washing machines ever made. Built from the best materials the market affords. There are very few parts, which means that the trouble experienced with other complex machines is entirely absent from the Allen.

ALL METAL BODY. Strong body construction with heavy angle steel frame so it cannot become loose and out of alignment. Water compartment galvanized to make it free from rust. Chamber easily accessible for cleaning.

CLOTHES CYLINDER. All aluminum, large seven-sheet capacity, new design cylinder. Water and suds circulate freely through the clothes, which can never be stained or torn, because the interior of the cylinder is smooth. Convenient and accessible for filling, wringing and cleaning. One of the most satisfactory and serviceable cylinders we have ever seen.

WRINGER. The wringer is all metal, except for the large full size 12-inch rubber rolls. Nothing to wear out. Instantly reversible. Swings and locks in four positions. May be operated while machine is washing. Works smoothly, quickly and wrings clothes dry with a powerful pressure.

GEARING. Fully enclosed; no danger to children. Made of best metal obtainable. Simple in operation and with few parts.

OSCILLATING ACTION. The rocking motion sets up a powerful swirling action of water and clothes which cleanses thoroughly in the shortest time. Absolutely no rubbing to injure any clothes. Heavy blankets or fine lingerie washed clean without wear and tear of fabrics. **MOTOR.** Before ordering see description at the left.

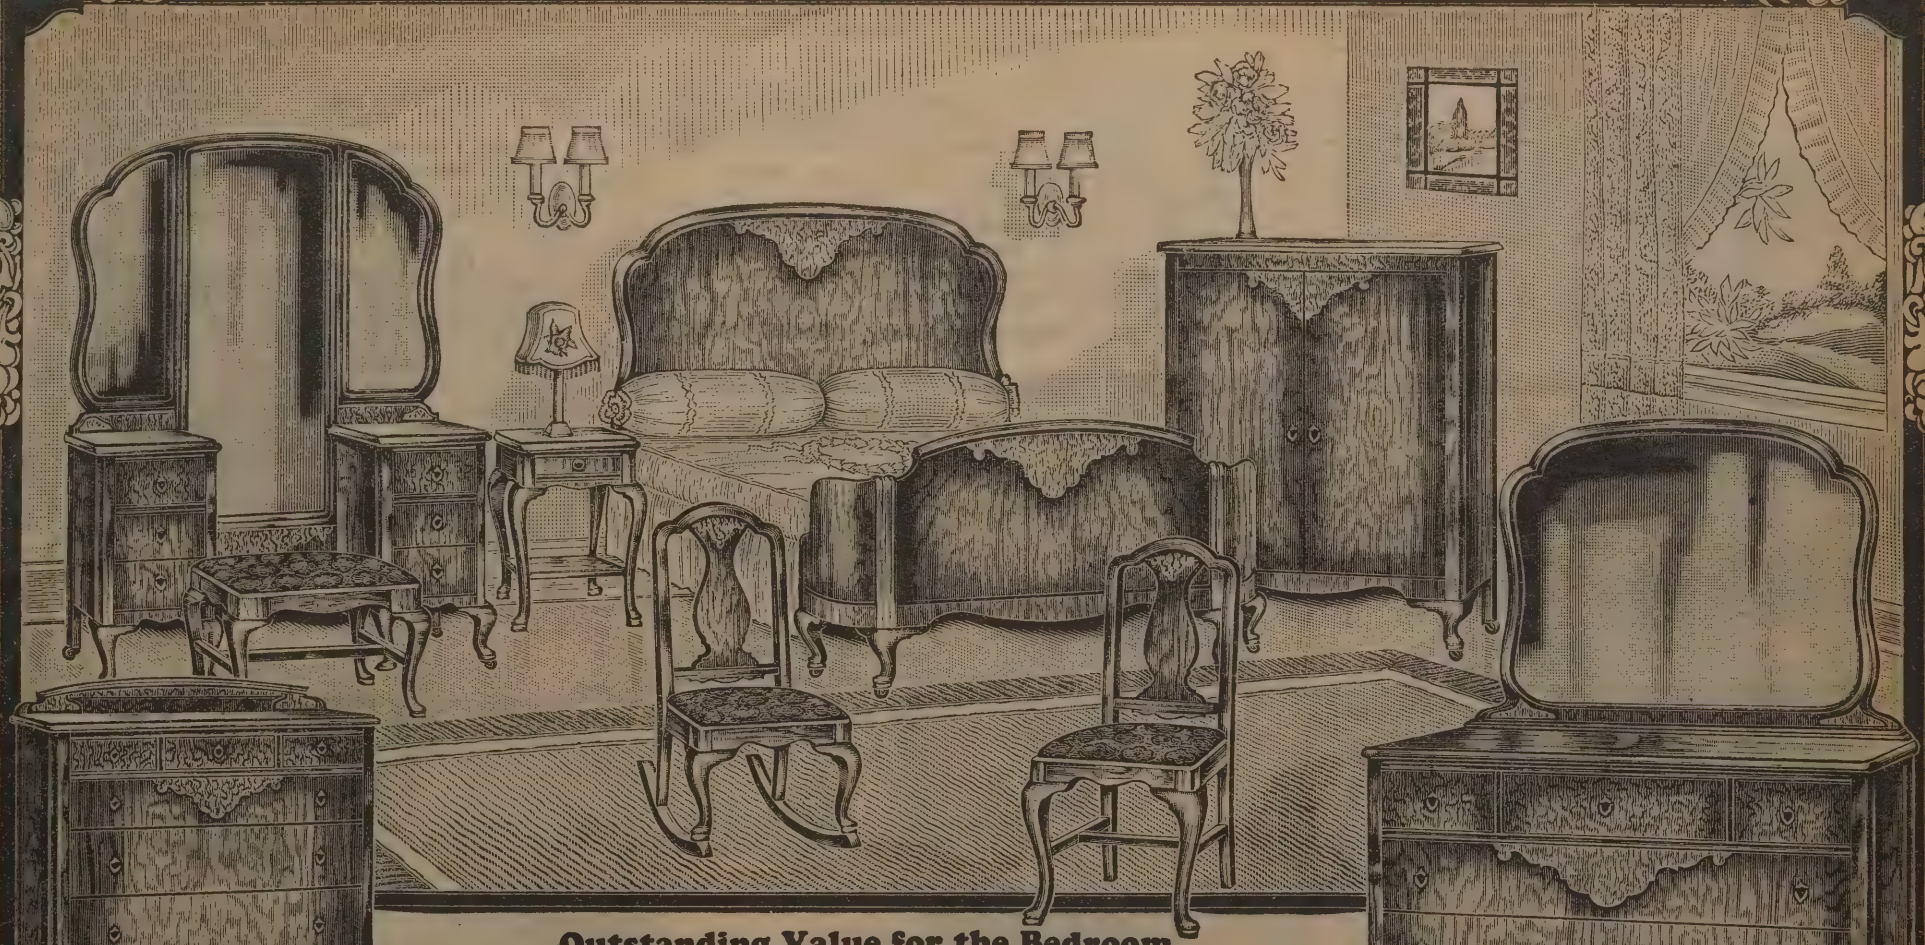
Beautiful Blended Walnut or Mahogany Set



Outstanding Value for the Bedroom

Charming Queen Anne design. If you are seeking beauty of design, dependable quality and excellent workmanship at a price that represents more than a substantial saving, you need look no further. This furniture will meet every requirement of those wishing good quality at a moderate price.

The design of this set, as suggested by the illustration above, takes its inspiration from the Queen Anne period when gracefulness and refinement were supreme requisites. The most modern designs and highest quality materials and workmanship are employed in the making of this furniture, insuring a sturdiness and endurance that will satisfy your severest demands.

This set can be had in antique blended mahogany or walnut veneer. All parts not veneered are gumwood, mahogany or walnut finished to match. The upright matched mahogany veneers on the fronts, tops and ends are set off with burl mahogany overlays. The veneered parts on the walnut finished sets have burl walnut overlays. "Antique Blended," the new hand rubbed finish which is proving so decidedly popular, gives this furniture a soft, subdued effect, and brings out the most beautiful colorings of the wood.

Compare these other features:

Backs, drawer bottoms and mirror backs are of three-ply; flush end construction, without panellings of any kind; boxed-in drawers with bottoms of genuine mahogany veneer; all drawers and compartments finished inside. Dustproof construction top and bottom; vanity dresser has dustproof top drawer. Angle brace construction throughout, and attractive Old English drawer pulls. Larger pieces have casters; night table, bench and chair have metal glides.

FEATHERS
Guaranteed 100% New

Feathers and Down

All feathers and down are positively guaranteed to be 100 per cent new; never used before. Treated by a special process to render them hygienic and sanitary, sterile and odorless. Bulk feathers and down sold by us comply with all sanitary bedding laws of the various states.

We are the largest retailers of bulk feathers and down in the world and, consequently, can furnish the HIGHEST QUALITIES, and also the LOWEST PRICES. Select your order from this page at prices which cannot be duplicated elsewhere.

PURITY BRAND. Our very best down. White as snow. One-half extra choice fancy white goose down and one-half white hen down. Highly recommended for those who want an exceptionally good quality down.
1F7145—Per pound..... **$1.58**

PURITY BRAND. Purified down. Selected, choice down. One-half choice gray duck down blended with one-half prime chicken down. Especially comfortable in cushions, comforters and bed pillows where softness is desired. A good grade, very reasonable in price.
1F7140—Per pound..... **98c**

Three-fourths choice light goose feathers and gray duck feathers blended with one-fourth prime white curled hen feathers. Contains a mixture of standard grades of good color blended to give the best combination possible for this unusually low price. Nowhere else could you find such a bargain in guaranteed feathers.
1F7115—Per pound..... **78c**

PURITY BRAND. One-fourth choice light gray goose feathers and three-fourths choice gray duck feathers. An economical choice of all goose and duck feathers possessing good filling and wearing qualities for making a buoyant and elastic pillow or feather mattress. Not quite as pleasing to the eye as 1F7133, or 1F7124, but gives the same result at a moderate price. Requires less pounds to fill than a cheaper grade.
1F7118—Per pound..... **$1.18**

PURITY BRAND. The best quality of selected downy white goose feathers. Here is a quality that will make an especially buoyant, lofty pillow or mattress, sure to wear well. Possesses unusual filling qualities; requires less pounds to fill than a cheaper grade. It pays to buy selected downy white goose feathers, the kind that pleases the most critical buyer.
1F7133—Per pound..... **$1.48**

Our prices are for the actual weight of the feathers without containers. Put up in 1, 2, 3, 5 and 10-pound sacks. All cushions, bulk feathers and pillows may be shipped parcel post.

PURITY BRAND. One-half choice domestic light gray goose feathers and one-half choicest domestic white duck feathers. SOFT AND FLUFFY. Choice gray goose, blended with choicest domestic white duck feathers is far superior to the average white goose feathers offered. The softness of the domestic fine veined duck blended with this quality of goose, makes an ideal feather for pillows and feather mattresses. Excellent filling and wearing qualities. Our price is very low and means a big saving as against prices elsewhere.
1F7124—Per pound..... **$1.39**

Prime dry picked western hen feathers, thoroughly renovated and deodorized. Far superior to the average hen feather that is offered elsewhere at the same price.
1F7103—Per pound..... **21c**

Prime selected dry picked hen feathers, one-fourth white, three-fourths colored. Considerably better than 1F7103, in color and softness.
1F7107—Per pound..... **35c**

About one-third gray goose and duck feathers and two-thirds prime white and colored hen feathers (equal proportions). Light in color, possesses better filling qualities than 1F7107.

Four Supreme Inner-Spring Mattresses

"Better Bilt" Throughout

The inner details of construction show the reason why our ventilated inner spring mattresses are so comfortable. Each of the hundreds of soft, oil tempered cushion springs is incased and sewed up in a separate muslin covering. They are then brought together and securely fastened. Heavy felted cotton, evenly tufted, covers the top and bottom of the springs. Over this is placed layer upon layer of clean, new felted cotton stock. The sewing up of the durable ticking cover completes the final, painstaking effort to make these mattresses the last word in sleeping comfort.

Another Big Bargain in a Well Made High Grade Ventilated Inner Spring Mattress

Never before have we offered such a high quality mattress at such an astoundingly low price. Fully $5.00 to $8.00 less than other stores ask for a mattress of the same high quality. Everyone can now afford one of these unusually comfortable, ventilated inner spring mattresses that give the restful effect of box springs. Filled with high grade, new clean felted cotton. Contains hundreds of coil springs incased and securely tied. A layer of felted cotton at top and bottom adds to the firmness. Extra quality allover striped or floral ticking. This wonderful mattress will instantly appeal to you, the same as it has to thousands of others.

The Most Comfortable Mattress Construction Known

A style which has recently become popular with our customers, although well known to the mattress trade. For several years the larger hotels and better homes have been using this exceptionally comfortable mattress, with inner spring construction, which has received the highest endorsement.

Now, this splendid style is offered at a price within the reach of all, in this high quality Inner Spring Mattress. Contains hundreds of fine coil springs, each encased in a muslin covering. The separate spring compartments are tied together, top and bottom, with strong twine. The springs are covered with layers of clean, new felted cotton stock. A layer of felted cotton at top and bottom adds to their firmness.

Our Inner Spring Mattresses are Whitmore quality, which guarantees the cotton filling to be all new clean felted cotton stock and that this mattress complies fully with all sanitary bedding laws. Other features making for serviceability and appearance are the roll edge and round corners, reinforced side stitching and strong, high grade satin finish ticking. Furnished in striped ticking as shown, or in attractive floral ticking.

Points In Favor of NO-Tuft -Stretch Mattress Construction

No-Stretch. The sectional distribution of the felted cotton filling prevents stretching and sagging.

No-Tuft. There are no outside tufts to catch dust. Therefore the mattress is easily brushed and kept clean.

Extra Filling. The rolled up cotton sections have extra layers toward the center where the wear comes, preventing "hollow spots."

The Construction. Considered the most mechanically perfect type of construction known to the mattress trade. Made especially for Sears, Roebuck and Co.

We highly indorse this inner-tuft felted cotton mattress above any other construction of cotton felted mattress.

NO-Tuft -Stretch Japara-Kapok Mattress

Made Especially for Sears, Roebuck and Co.

Japara Kapok is a silky vegetable fiber, somewhat similar to cotton, but unusually light and buoyant. A mattress filled with it requires only 30 pounds (in the full size) to equal the bulk of about 50 pounds of cotton felt. It is the standard material adopted in mattresses, pillows and cushions used by the Navy and Merchant Marine.

Select Grade Japara Kapok

Many grades of kapok are grown and marketed, but we use only the finest Japara grade.

Unique in Value—Design—Quality

A fine day bed is a serviceable and decorative addition to any home. A restful couch by day and a full size double bed by night. The unusual effect of the solid paneled head and foot, offset by the ornamental steel cane ovals, gives this day bed a distinctive touch that sets it off from the ordinary day bed standards. Its great convenience and beauty is increased by the simple, easy operating mechanism, which converts it into a comfortable double bed. In opening, it operates clear of the floor and thus does not mar the floor or rumple the rugs. Genuine hand grained walnut finish; has many other features not usually found in day beds offered at our exceedingly low price. It is a real bargain.

CHESTS Red Cedar

MOTHS! Avoid Them With Cedar

These cedar chests are more than beautiful pieces f furniture. They are insurance against the avages of moths, the little mites who delight in evouring those lovely fabrics you treasure, the ts of clothing and furnishings for which you paid od money. A cedar chest not only keeps moths out, but kills ose which may have been in the fabric at the time you put into the chest. **Read These Facts From a Department of riculture Test:**

Thirty moths and a supply of flannel placed in red cedar chest; e weeks later there were no living moths, no eggs, no larvae. me test was made in an ordinary trunk. Fifty live larvae re counted at end of nine weeks.

32-Piece Imported German Dinner Set

The growing demand for dinnerware today is for sets that contain the most essential pieces and yet do not take up much space in the china closet or pantry.

The Set we are offering here contains 32 pieces and is a complete service for six people. It is made of German earthenware and is decorated with a famous quaint allover design in Copenhagen blue (under the glaze) which will not wear off. This decoration has usually been offered only on sets of larger compositions, but on account of the increasing demand for small sets, we succeeded in inducing the pottery to make it for us on this ideal service.

The ware has a rich, glossy transparent glaze which shows the design to good advantage.

For list of pieces see top of page.

Apple Blossoms and Gold Dinner Set

The decoration on this set, which is unusually dainty and pretty, consists of conventional design tan color scrolls. In the center of each scroll is a large pink rose on a blue background. Suspended from each end of the scroll is a garland of pink apple blossoms with green foliage. The combination of colors is soft and pleasing. There is a gold band around the outside edge and a gold hairline on the shoulder of each piece. The handles are traced with gold. The ware is made of pure white semi-porcelain in a Colonial shape. For those wanting a dinnerware pattern out of the ordinary we recommend this one.

Imported English "Blue Willow" Dinner Set

This is not the cheap, low quality of Blue Willow which is being offered at low prices and which will not give satisfaction.

It is a splendid high grade Imported English Blue Willow pattern made by "Allertons, Ltd.," one of England's most famous potteries. Our prices are the lowest at which this high grade Blue Willow ware can be sold.

The Blue Willow pattern is probably the most famous design ever used on dinnerware, and there is something in the soft blue allover decoration which is most pleasing to the eye. The pattern is an ideal one for a breakfast, luncheon or dinner set. The decoration being put on under the glaze, insures permanency. It cannot wear off. The ware is made of high grade genuine English semi-vitreous porcelain in a fine old English shape.

Famous Indian Tree Pattern Dinner Set

This is a splendid reproduction, on American semi-porcelain, of the highly colored English Indian Tree decoration. This Indian Tree decoration has always been greatly admired ever since it was first introduced on old English China. There is just enough color and brightness to make it pleasing and attractive. The decoration consists of the famous old Indian Tree in subdued tones with pink foliage and green leaves. Around the outside edge and the shoulder of each piece is a narrow band of sepia brown. The handles are traced with sepia brown. The set is made of pure white American semi-porcelain in the "DIXIE" plain edge shape.

Rose and Ivory Border Dinner Set

Border pattern dinner sets with colored lines are becoming more popular every day. This attractive pattern consists of a wide ivory tone border with a narrow black border around the outside edge. Between the ivory and black border is a dainty line of powder blue. Arranged on the ivory border are clusters of large pink roses and blue forget-me-nots. The narrow black border has small pink roses and blue forget-me-nots alternating. Around the outside edge and on the shoulder of each piece is a dainty black hairline. This black and ivory combination is very effective and pleasing to the eye. The handles are traced with dainty black lines. The ware is made of pure white semi-porcelain in a beautiful plain edge shape.

Gold Band and Blue Line Dinner Set

Daintiness Combined With Beauty and Elegance

There is nothing that appeals as quickly and strongly in a gold decorated dinner set as a decoration which combines beauty with daintiness. That is what this set does. The decoration consists of a band of bright gold around the outside edge of each piece with a blue hairline beneath it. There is also a gold band and blue line around the shoulder of the hollow pieces. The handles are traced with gold. The gold and blue treatment upon a new, popular, plain edge shape makes a very pleasing combination and a most attractive decoration. The ware is made of pure white semi-porcelain.

Ivory Body Dinner Service in

100-Piece Ivory Body Dinner Set $19.98

Gold Band and Gold Line Dinner Set

We have always thought of American dinnerware as being pure white or white with a bluish tint, highly glazed, and it has always been so; but through a new process of manufacture the HOMER LAUGHLIN CHINA CO.—the largest manufacturers of dinnerware in the world—have perfected and produced a dinner service with an ivory body in an Octagon or Colonial shape, which is a revelation in the dinnerware world. The soft shade of ivory sets off most beautifully the various decorations and adds a soft and pleasing effect, which is hard to obtain from the white. We offer here for the first time, on this and the opposite page, in Complete Sets and Open Stock, three of the most popular and effective decorations.

Floral Spray Ivory Body Dinner Set

This is one of the most attractive decorations ever applied on a dinner set. It becomes more pleasing each time it is used. The decoration consists of red, blue and yellow Zinnias with green foliage. Around the outside edge and on the shoulder of each piece is a band and a hairline to match the red flower. The handles are traced with red. This beautiful combination of colors applied on the ivory body semi-porcelain makes a most pleasing effect and is one that you will not tire of.

olden Rose Ivory Body Dinner Set

One of the most pleasing decorations applied on dinner- re today is called the golden rose. It consists of large and all yellow flowers with leaves and stems of black and a black line ound the outside edge of each piece. The handles are traced with ck. This combination of black and yellow on the ivory body ni-porcelain makes a wonderful impression. The shape is the w Octagon or Colonial shape which, on account of its plain and nple lines, is very pleasing and handsome.

For Greater Convenience in Kitchen and Pantry

Cooking and Baking Glassware

These dishes are made of clear glass of high heat resisting quality in what is known as the optic shape, which combines great strength with low expansion under heat. The corrugated bottom permits the heat to circulate and bake an even crust top and bottom. Clean and economical in service. In baking, oven heat is transmitted to the food uniformly on all sides.

This glass is clean and clear and most attractive on the dining table. It does not chip, as all edges are round.

Latest Improved Butter Churn

Churns SEE ALSO PAGE 1010

Gets all the butter out of the cream in 8 to 10 minutes. This is the style churn used by the Agricultural Colleges for their scientific experiments in butter making. The peculiar construction of the dasher, giving a rotary motion to the cream against the square sides of the churn, is what makes this the best churn ever made. A child can operate it. Easy running, strongly made, easily cleaned. A perforated draining cap in lid of the two larger sizes permits the buttermilk to be poured out and cold water poured in to wash the butter without removing the top.

Extra heavy flint glass jars with rounded corners. The 4-blade dasher is made of Northern Wisconsin hard maple. Castings and gears accurately fitted and light running. Used also for beating eggs, whipping cream, mixing cake batter and salad dressings. Will churn one-half the capacity of the churn. Can supply extra jars for glass churns.

Attractive Lamps Make The Home Cheerful

Ever-Brite Gasoline Table Lamp

Lights With a Match
Economical
Convenient,
Simple,
Clean, Safe

The "Ever-Brite" Lamp is all that the name implies. It produces a light of unusually high candle power. Its consumption of fuel is very small, being only 3 pints of gasoline in twenty-four hours' continuous burning. In other words, you can burn this lamp three hours a night for a month on about 1½ gallons of gasoline. It is fitted with two mantles, and for this reason it casts no shadows, which is a very great advantage, as users of ordinary kerosene lamps will quickly realize.

It lights almost instantly with an ordinary parlor match. Anyone can operate it. There are no complicated parts to get out of order. Requires filling only once a week, and a few strokes with a small hand pump every two or three days to keep up the air pressure.

Absolutely safe. The fuel has only one outlet—a tiny hole in the generator—so there is absolutely no danger. If filled by daylight, there is no chance of accident. It has no wick to trim, no chimney to clean or break. It cannot leak or become oily.

"Ever-Brite" Lamp, base and burner are made of heavy brass, nickel plated. The standard is made of brass covered with heavy black wood. Height, 20 in., and the diameter of the base, which contains the fount, is 8 inches. Capacity of fount, 3 pints.

This is an ideal lamp, as it concentrates the light. It is furnished complete with two extra mantles, air pump, wrench, cleaning pick, extra generator and extra tip.

This lamp is fitted with a ribbed glass shade and is the ideal lamp for library, living room, dining room, bedroom and for general all around purposes.

Rochester

The Old Reliable "Rochester" Lamp at an Exceptionally Low Price

This lamp has been the standard reading and sewing lamp for forty years or more and is probably the best known lamp ever produced. Its main features are **simplicity, durability and fine strong light.**

Simplicity. The lamp is so constructed that there are no complicated parts to get out of order. To operate it after it is lit, all the user has to do is to turn the wick.

Durability. It is scientifically made of heavy gauge brass, nickel plated, and with proper care will last a lifetime.

Light. The lamp is fitted with a No. 2 center draft burner, No. 2 Rochester chimney and wick, which produces a clear, strong and steady tulip shape white flame, equal in brilliancy to more than forty candle power.

The lamp is an ideal one for reading or sewing; it is efficient and economical to maintain. The oil capacity is 1 quart. Height, 21 in.

The price we ask—$3.85—for the lamp complete, including chimney, wick, 10-inch tripod and 10-inch opal glass dome shade, is very low. It is probably about one-half the present retail price elsewhere. Weight, packed, 9 pounds.

Burner and Chimney

Scientific experiments by the Standard Oil Company show that users of oil lamps fitted with the ordinary No. 2 brass burner and crimp top chimney are not getting the maximum amount of light from this combination.

The Standard Oil Company working with the manufacturers of burners and chimneys have developed an all brass No. 2 burner and a lead glass chimney with straight top which produces a far greater volume of light.

You cannot use satisfactorily the new burner and the old crimp top chimney, neither can you use an old burner with a new approved chimney. To obtain this bigger and better light, **it is necessary to use both the new improved No. 2 Brass Burner and the new approved Straight Top Chimney.**

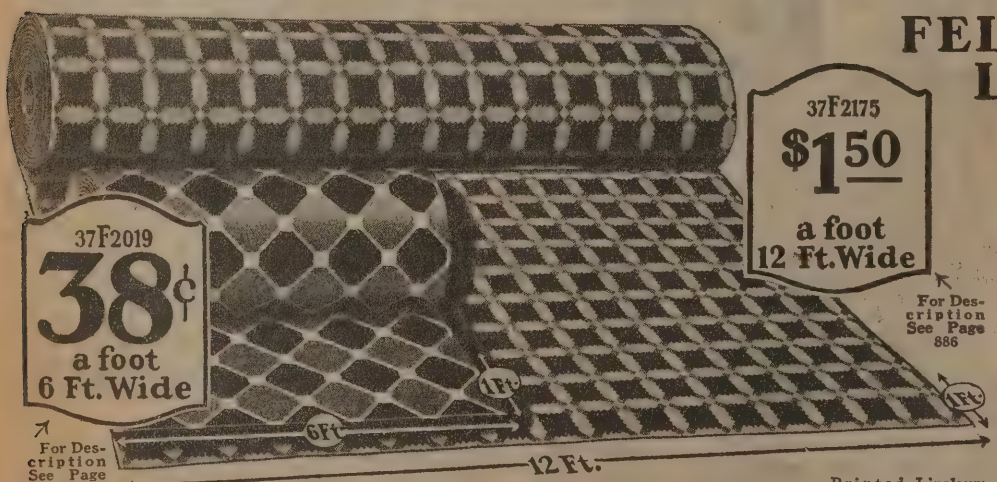
A New and Easier METHOD of ORDERING FELT BASE and LINOLEUM



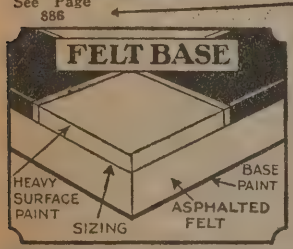
Buying floor coverings, like felt base and linoleum to fit your floor space, can be as easy as learning the A B C's.

Our new way of listing these materials makes it just that simple. We now price both felt base and linoleum by the "running foot" instead of the "square yard." Most dealers still quote prices by the square yard, although there really is no good reason for doing so. That is just an old custom which someone started, but which we are now changing because the new way is so much easier for everybody to understand.

When you measure your kitchen or dining room, for example, you will probably take a tapeline and find that the room is 15 feet long by 12 feet wide. Now, if you want a pattern which is made in the 12-foot width, you will need one strip 15 feet long. If the price is $1.50 a foot, it is going to cost you 15 times $1.50, or $22.50, to cover your entire floor. Nothing to it, is there?

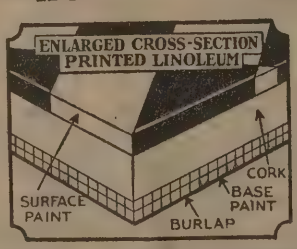
Or, suppose you want a pattern which comes in the 6-foot width. Then you would need **two** strips 15 feet long, or 30 feet in all. If the price of the pattern is 38c a running foot, then your total cost would be 30 times 38c, or $11.40.

We have tried this new method in one of our former catalogs as an experiment and the response of our customers was so enthusiastic we knew that it must be the right way. It is now just as easy and simple to order linoleum, our customers tell us, as it is to order any of our other 35,000 bargains.



On all our Felt Base Fabrics the pattern is carefully printed on a specially prepared waterproof base, consisting principally of asphaltum and various ingredients to give it a durable, resilient and smooth surface.

We recommend varnishing the surface occasionally with our Special Linoleum Varnish, page 1002.



Printed Linoleum has its pattern heavily printed on a real linoleum base, which has a strong burlap back. It is economical to buy and is a very satisfactory wearing fabric. Easy to lay and easy to clean.

We recommend varnishing the surface occasionally with our Special Linoleum Varnish, page 1002.

Best Seamless Jute Tapestry Brussels Rug Made!

By actual comparison, we know there isn't a better rug of this kind made—bar none! We know, too, that our prices are lower on this quality than you can obtain from any other store whatsoever. We are again proving to our customers that whenever they are in the market for floor coverings, no matter what kind, Sears, Roebuck and Co. is the store that can save them the most money. Quality for quality and price for price, we welcome comparisons with the offerings of any other retail or mail order store in America! Imagine getting a 9x12 rug for only $9.95. At our low price we know you will get more than your money's worth when you buy a Jute Tapestry Brussels. Yet for real service, for real month after month wear, we recommend a **Worsted Wool** Face Tapestry Brussels such as described in the column at the right and shown on opposite page. Consider the purpose for which the rug you are buying is to be used, the room in which it is to be placed and the amount of wear it will have to bear. Then select your rug accordingly. Has a taupe ground with figures in blue and brown.

(A) Fashionable Chinese Pattern in a High Grade Seamless Velvet Rug

No design for floor covering has quite the fascinating beauty of a Chinese pattern, and this is one of the prettiest on the market. It is usually found only in rugs selling at a much higher price, but we are proud to offer this value in a Seamless Velvet Rug of unexcelled quality and guaranteed to be entirely to your satisfaction. This quality would not be sold for less than $38.75 in the 9x12-foot size in most retail stores, and is usually sold as a Wilton Velvet.

Makes Every Step a Comfort

The latest and most scientific way of laying carpets and rugs is over this soft "Nuhair" Cushion. Adds materially to the life of your floor covering and gives that soft luxurious effect. "Nuhair" is made of a felted hair and is very much like a hair mattress for resilience and softness. Simply lay your rug over it without fastening. Prevents creeping and buckling. "Nuhair" will last a lifetime and can be taken up and relaid just like a rug. If you have not already ordered rug cushion—Order at once—Cost is but little—Use it throughout your home.

Is it any wonder that so large a number of progressive home makers all over the country are welcoming Sears Rugs with such enthusiasm? As you look over these pages you will find UNEQUALED VALUES in every kind of a rug made in America. We especially offer for your consideration the new "MEADOWBROOK," THE ONLY GENUINE WORSTED WILTON VELVET RUG, the widely advertised "KARNAK," the aristocrat of American Wiltons, and our own "SERVISTAN," a high grade Wilton Rug which has given satisfaction to countless thousands of our customers.

You will find that the prices we quote are far below those of other dealers on the very same grade of rugs. That is why we say to our customers that you cannot afford to overlook Sears, Roebuck and Co.'s Rug Values, because you can buy better rugs in a wider range of sizes at lower prices from the World's Largest Store than any other place in America.

Cut to Measure

For Your Halls, Stairs and Rooms

Beautiful floors at small cost—this is the service of our carpet department.

In making up carpets to cover your entire room, there is no need for the services of a high priced estimator. All that you need to do is to send us a diagram of the room you wish to cover, giving us the dimensions, and noting any fireplace or irregularities. Our special service department will then (without charge) cut your carpet so that it will fit exactly. The only extra charge that we will make is for sewing, 4 cents a yard for carpets, 10 cents a yard for special size rugs (made of carpet and border to match). When ordering carpet and border there are always ends of the border left, which we will sew up into a mat or small rug at $1.25 a piece extra.

ABOUT COLORS AND SIZES. The following are colors of lace curtains and curtain materials: Going from light to dark, ivory is the first shade darker than white. Cream is slightly darker than ivory. Drapery ecru comes next, a soft warm shade of light tan. Beige is a little darker in color than drapery ecru. Curtains may vary from 1 to 2 inches from sizes given; for due to the finishing process they either shrink or stretch slightly. In ordering curtains bear this in mind.

We Make Our Own Window Shades

6 Points of Information

Needed to fill your order for shades correctly

(1) Catalog Number (complete with fractions) of the quality and style you want.
(2) Quantity—How many of each size?
(3) Width—Is measurement given width of cloth, shoulder measure, or tip to tip of roller? **Be sure to Read "How to Measure for Made to Order Window Shades" on page 925.** Take **exact** measurement with yard stick or rule. Do **not** use a cloth tapeline. Please note that if the shade is to be placed inside the casing as in Diagram No. 1, on page 925, we must know the exact distance between the jambs where brackets are to be placed or the exact width of the roller from tip to tip (including extreme metal points), otherwise the shade will not fit. This item is most frequently overlooked.
(4) Brackets—Do you want inside or outside brackets? Refer to Diagrams No. 1 and No. 2, on page 925.
(5) Length—State length. Measure from top to bottom of window and add 6 inches to allow easy raising and lowering.
(6) Color—Select from the colors listed in the quality and style you want and **be sure to state it.** Samples furnished on request.

Special Size Made

Fine Quality Handmade Oil Opaque Shades

All sizes in the 24F1500½ price list are made from high quality HANDMADE oil opaque shade cloth, mounted on nickel trimmed **HARTSHORN** spring rollers. The firm cloth foundation is colored by hand, and should not be confused with the somewhat lighter weight machine oil opaque cloth which is painted by machine.

COLORS—These shades are made in the following attractive and desirable colors: **Sand, light brown, buff, slate, white, dark green or dark olive green. State color wanted.** Shade cloth 48 inches and wider is made of heavier fabric and may not always exactly match colors of smaller shades, but the variation is hardly noticeable.

In the price list below, "Width in Inches" is the width of cloth. If the exact size you wish is not given in the following schedule, the next larger size will be charged, but the shade will be made the exact size you order. Shades up to 63 inches wide by 10 feet long are mounted on wooden rollers. All shades larger are mounted on tin rollers. **State whether measurements are for inside or outside brackets.**

BE SURE to read "HOW TO MEASURE FOR MADE TO ORDER WINDOW SHADES," on opposite page, and give us the "6 POINTS OF INFORMATION" as described on page 923, which we need to fill your order correctly.

It usually takes about six days to make special size shades to order. We require the full amount of cash with the order in every instance. All shades are shipped complete with slats, brackets, nails and steel ring shade pulls.

24F1500½—Order by number and be sure to state width, length, and color wanted. Average shipping weight, 1¾ pounds.

Beautiful Windows

Play a very important part in making the home attractive, and shades of the proper tone are just as important in beautifying the home as are drapes and curtains.

In the past much consideration was given to selecting a color that would harmonize with the exterior of the house—now the general effect of the interior of the room is given equal or more consideration when choosing the tone color. The whole mellow restfulness of the room depends on the right selection.

You will find in our range of colors the tint you have in mind or the color scheme you want to carry out. Should the colors be unfamiliar to you, we will gladly send samples of the actual shade cloth.

All our window shades are made in our own **Shade Factory.** We use the best quality shade cloth obtainable and the guaranteed spring rollers are nickel trimmed. We have shades to meet all requirements at prices that represent **decided savings.**

When ordering shades, be sure to give us the "6 Points of Information" as described on page 923.

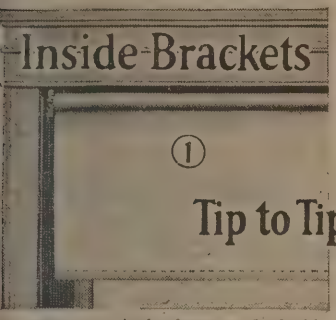
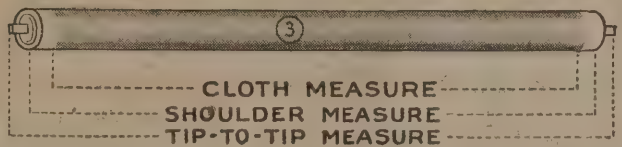
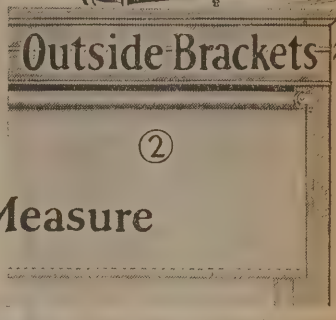
How to Measure For Made-to-Order Window Shades







Tip to Tip Measure

Inside Brackets

Diagram No. 1 shows window shade hanging on the inside of the casing. If ou want your shades hung on the inside of the casing and you have an old shade, give xact width of the old roller from tip to tip (including extreme metal tip) and be sure to pecify "INSIDE BRACKETS." If you have no old shade, measure inside of the indow casing from stop to stop and specify "INSIDE BRACKETS." This measure- ent should be taken at top of casing where shade will hang.

MEASUREMENTS should be taken very accurately, even to a sixteenth of an inch. Use a yard stick or rule. Do not use a cloth tapeline.

Cloth Measure

Outside Brackets

Diagram No. 2 at the right shows window shade hanging on the outside of the casing. If you want window shades hung on the outside of the casing, give width of cloth and be sure to specify "OUTSIDE BRACKETS."

REMEMBER to tell us how measurements are taken and the kind of brackets you want.

For the LENGTH, measure from top to bottom of window and add 6 inches to allow easy raising and lowering.

Some customers prefer to order shoulder measure as in diagram No. 3.

Luxor Cambric Window Shades

Mounted on Hartshorn Rollers

LUXOR is a translucent shade made of finely woven cambric, expertly prepared, and colored by hand with pure oil colors. The material contains no starch, clay or other filling, and it will, therefore, not crack or show pinholes. The colors are fast and will retain their fresh, attractive appearance in any climate. Mounted on nickel trimmed **Hartshorn** spring rollers. These LUXOR shades will render years of service and satisfaction.

We can furnish the following soft tint colors **Cream-white, ecru, pongee, linen color, ivy green or moss green. State color wanted. Samples furnished on request.**

If the exact size you want is not given in the following list, the next larger size will be charged, but the shades will be made the exact size you order. **State size and color wanted, and specify whether measurements are for inside or outside brackets.** BE SURE TO READ "HOW TO MEASURE FOR MADE TO ORDER WINDOW SHADES" above, and give us the "6 Points of Information," on page **923,** which we need to fill your order correctly. Shades over 54 inches wide shipped from our factory in CHICAGO, ILL. Shipping weight, 1¾ pounds.

Genuine White Porcelain Enam-ed Splasher and Cooking Top. eans as easily as a china dish.

Cooking Top has three 8-inch diant type surface heating units, ranged in ideal clover leaf pattern, fording maximum utensil capacity. ade of extra thick pressed steel, mbining strength with cleanliness d eliminating unnecessary weight. easures 21½x24½ inches.

Heat Units. Three 8-inch remov-le units, with coils arranged irally in a deeply grooved clay oduct which is unaffected by water, ices or acids; not harmed by boil-g over of fluids. Terminal connec-ons made extra heavy. Maximum pacities 1,200 watts each. See Oven Units" in small illustration.

Reversible Snap Switches. Plainly arked. Cherry red heat instantly. w, Medium or High regulation, ving 300, 600 and 1,200 watts, as sired, on all units.

Unless

you have tasted foods baked or cooked the electric way you cannot appreciate the flavory, tempting, delicious difference over cooking by any other method. Less water is required, no chance for boiling over, and full flavor and juices are retained without the usual shrinkage. There are no fuel gases to be absorbed by the foods and no uncertain temperatures to contend with. Have you noticed that toast made the electric way is far superior to any other? The difference is more pronounced where savory meat juices or airy pastries are freed from fuel odors and gases by electric cooking.

The Logical Successor to the Old Fashioned Heating Stove. Defies All Kinds of Winter Weather

When Winter Comes—That's the time our customers will rise up and thank us for supplying them with the Dauntless Warm Air Circulator. Let it rain—let it snow—let it hail—let it freeze and you will always find the Dauntless on the job ready to keep your rooms properly heated with a small amount of fuel.

From Coast to Coast, from border to gulf, in cities, towns and hamlets, thousands of users claim the Dauntless Warm Air Furnace the most efficient and most wonderful heating device they have ever seen or used. Built for lifetime service. Takes the place of two or three ordinary stoves.

Unconditionally Guaranteed. Special 30-Day Trial Offer

Every stove we sell is covered by our binding guarantee and we are pleased to ship you a Dauntless Warm Air Parlor Furnace with the understanding and agreement that it must reach your station in perfect order. You can give it 30 days' trial, during which time you can put it to every possible test, and if you do not find it better, stronger, handsomer, better made and better finished and more economical in the consumption of fuel than any heating device you could buy at home or elsewhere at almost double our price, you can return it to us at our expense and we will immediately return your money.

Lasts a Lifetime—You do not purchase a furnace or heating appliance for five or even ten years and for that reason the questions of Durability, Economy of Fuel and Efficiency are most important.

There is but one way the purchaser can intelligently determine the size and kind of heating device to buy, and that is by thoroughly investigating the construction of the many appliances on the market and determine from that investigation whether it will heat the home perfectly in all kinds of weather and give years and years of satisfactory service. In this respect, you take no chances with the Dauntless Warm Air Furnace.

It Is Built Throughout of Extra Heavy Cast Iron and produced in our own foundry by men with more than forty years of stove making experience. The materials used are absolutely the best obtainable, regardless of price. The extraordinary durable iron used as the base for the rich grained Porcelain Enamel finish, is not the ordinary commercial kind, but is produced by blending of several different kinds of iron selected for their special qualities, and a proved formula that produce a metal so durable that we can **unconditionally guarantee the Dauntless** to withstand the hardest kind of usage for practically a lifetime. The back of casing is finished in plain black baked-on enamel.

No other dealer or manufacturer dare make this offer, for we are the only ones, that we know of, that use Solid Cast Iron for the outer casing. Steel, the material generally used, will not stand up as cast iron does.

We Sell Direct to the Consumer

We sell the output of our foundry direct from foundry to user, thereby eliminating all middlemen's, agents' and jobbers' profit and give our customers the benefit of foundry prices.

Anyone may enjoy the comfort and pleasure of the DAUNTLESS Parlor Heater as offered at our very low price and easy time payment plan. On the time payment plan our price is **only $87.50,** payable **$5.00** with your order and **$5.00** a month until the full time payment price has been paid. Only a few cents each day brings you the joy, comfort and happiness this beautiful porcelain enameled heater is sure to give you. Besides, you will begin saving on your fuel bill as you pay and have a **real heater** possessing the dignity and charm of a piece of furniture.

The Water Pan or Humidifier for producing moist air is located at the bottom opening of the air duct, a very important feature, making it readily accessible so it can be filled when necessary with a pitcher, dipper or other container. It can be removed and filled and then replaced with a minimum amount of effort.

Closely fitted doors, special designed **smoke outlet** and perfect **dampers** give positive control of the fire. Tests made have shown a saving of one-third to one-half of the fuel required to heat the same amount of space as an ordinary stove.

Large feed door accommodates large chunks of coal or wood. **Smoke Screen** is provided inside of feed door and keeps the smoke out of the room when the feed door is open.

The **inner body** is rugged in construction and dome shape in design. Heavy steel plate dome or combustion chamber is securely bolted to outside of fire pot, preventing bolts from coming in contact with flame and burning off. All joints are hand ground and securely fitted together with best quality cement, giving an absolutely airtight construction. Damper construction permits regulating the heater to produce almost any degree of heat.

Holds fire for almost forty-eight hours without attention. The firepot is made extra heavy, similar to those found in hot air furnaces. **The hot blast** feature consumes the gas arising from the fuel and causes the heat to be thrown against the body instead of into the center of the heater. Combustion takes place in a complete circle against the fire pot; the entire radiating surface is uniformly heated, producing almost complete radiation.

Measurements of the Dauntless: Height from floor, 51 inches. Diameter of **fire box,** 16½ inches. Feed door, 10½x14 inches. Floor space, 25x25 inches. Takes 7-inch stovepipe. Shipping weight, 480 pounds.

Securely and carefully crated. Shipped from our foundry in Newark, Ohio. Our enormous stocks insure prompt shipment and the Dauntless should reach you within 5 to 7 days after your order is received. Order now. Don't wait.

BEAUTIFIES THE ROOM

Zenith-Parlor Furnace

Looks Like a Fine Piece of Furniture

Can Be Placed in the Living Room, Dining Room or Bedroom and Harmonizes With Any Kind of Furniture

Burns Hard Coal [Anthracite], Soft Coal, Coke, Lignite or Wood

A distinctive new type of heating device, that circulates steady warmth all through the house. Operates on the hot air furnace principle. Draws air in at bottom, heats and moistens it and forces it through open fretwork to circulate into every corner of the house.

You will breathe in good health from circulated air, that is moistened and invigorating as out of doors and makes you feel active and well. This wonderful feature of warm air circulation enables the Zenith Parlor Furnace to do the work of ***two ordinary heating stoves and warm the entire house*** instead of just one or two rooms. ***Costs little to operate,*** as it uses no more fuel than an ordinary heating stove, will hold fire from 12 to 15 hours without attention.

The Zenith Parlor Furnace is another product of the World's Largest Stove Foundry and our tremendous volume enables us to sell it direct from our foundry to you at foundry cost with our one profit added. Our price saves you about one-half of what you would pay for a Parlor Furnace of equal quality bought elsewhere.

Outside Casing. Front and sides made of heavy cast iron, enameled in a rich shade of mahogany, genuine porcelain enamel. Smooth as glass, everlasting and adds to the appearance of any room. Easy to clean. Just wipe with a cloth. No dust or dirt. The back is made of heavy steel plate finished in baked-on black enamel.

Heating Element or Inner Gastight Construction, consisting of fire pot and dome, commonly known as combustion chamber, is made of heavy cast iron to insure years of hard usage. Will hold fire from 12 to 15 hours without attention. The oval shape of the fire pot provides a large surface for burning the coal evenly.

The Duplex Type Grate is made unusually heavy, especially suited for this particular fire pot which makes it very easy to shake, and enables you always to have a clean, bright fire. It is not necessary to open the ashpit door to shake the grate. Because of the airtight construction the ashes are confined to the stove and do not find their way into the room.

The Large Feed Door for easy feeding is another desirable feature and permits the use of large lumps of coal. Being securely hinged to the body, a perfect fitting door is insured; measures 12½x7½ inches.

Ashpit made in one solid piece. Absolutely smoke and gas tight.

Fire Box measuring 16 inches long, 10½ inches wide, 18 inches deep, and Heavy Duplex Grate are made extra heavy and guaranteed for years of satisfactory service. The construction is such that you can burn hard (anthracite) coal, soft coal, coke, lignite or wood.

The Reversible Flue Collar permits running the smoke pipe directly into the wall without extending above the heater line.

THE WARM AIR PRINCIPLE

It is a well known fact that cold air in a room is always nearest the floor, and hot air rises. The construction of our Golden Age Warm Air Heater is such that the heater warms and circulates the air not only in the room in which it is placed but adjoining rooms as well. Cold air is taken from the floor, and, after being heated, is passed into the room, producing a pleasing effect of warm air, just like a furnace. Circulation of heat is constant and even temperature easily maintained.

Details of Construction

Fire pot and dome, combustion chamber, are made of extra heavy tested cast iron to insure long life, despite any hard usage the stove may receive. Oval fire pot provides a large surface for burning the coal evenly. Firepot measures 16 inches long, 10½ inches wide and 8½ inches deep.

Smoke curtain assures great cleanliness, prevents smoke from coming into the room during refueling.

Double bar duplex type grate, unusually heavy, especially suited for this particular fire pot which makes it easy to shake, and enables you always to have a clean bright fire. It is not necessary to open ashpit door to shake grate. Airtight construction of the heater, the ashes are confined to the stove and do not find their way into the room.

Large feed door for easy feeding measures 12½x7½ inches; permits the use of large coal lumps. Securely hinged, perfect fitting. **Large mica lights** expose fire to view for you to enjoy its friendly glow.

Reversible flue collar permits running the smoke pipe directly into the wall without extending above the heater line.

Water pan, to keep air moist.

This Big Double Heater Defies the Coldest Winter Days

Heats a Big House, Downstairs and Upstairs Without Forcing. Burns Hard (Anthracite) Coal, Soft Coal, Lignite, or Wood.

Best principles of heating require a constant and steady circulation of warm air to every part of the room from floor to ceiling. This stove has two steel bodies with an air space or flue between which draws air from near the floor, and as the air passes upward between the bodies it becomes highly heated and passes out very hot from the hot air collar, furnishing a steady circulation of heated air.

Heats a big house, downstairs and upstairs. Heat an upstairs room or two without extra fuel cost by connecting a stovepipe from the hot air collar to a register in floor above. Register for this purpose is listed on page 1019.

Strongly Made—Bright, Smooth Nickel Plated Trimmings

Whole stove strongly made of cast iron with steel drums around the fire chamber. Made to stand hard firing and last for years. The airtight base, made tight by our famous Wehrle machine fitting system, makes this double heater the most wonderful fire keeper and fuel saver ever made.

Fire pot and easy working roller bearing grates are extra strong to stand hard firing and intense heat. The kind used on high priced base burners. Two feed doors make a big opening for putting in large chunks of wood. Mica windows to radiate firelight around room. Bright and snappy nickel plated base and legs, foot rails and trimmings. A very beautiful stove, good enough for the nicest homes.

Shipped from our large stocks at NEWARK, OHIO.

All sizes take 6-in. pipe. Terms: $4.00 cash and $4.00 a month until paid. Use Time Payment Blank on page 1100.

The freight charges amount to next to nothing compared to the big saving in price. This big double heater can be shipped 150 miles for approximately $1.31; 300 miles for $1.78, and 500 miles for $2.33.

Popular Priced Soft Coal Hot Blast Heater

Guaranteed to Please in Looks, Price and Service

Burns Soft Coal, Siftings, Slack, Lignite, Coke, Hard Coal or Cobs. Made airtight so fire is under positive control at all times. Holds fire all night. NOT A WOOD BURNER

Combines the best, most durable features that have made hot blasts such popular heaters wherever soft coal is burned. A quick and powerful heater, thoroughly dependable in any kind of weather. Doubly efficient because it combines both principles of hot blast construction, the hot blast ring above the fire pot and hot blast tube from the top, while most hot blast heaters contain either one, but not both, of these features.

This stove gets all the heat possible out of every pound of fuel and gives steady heat, day and night. Consumes smoke and gases, greatly increasing the heat and reducing the fuel bill.

Features of Interest and Convenience

Fire pot is of extra heavy cast iron, large and deep. Heavy cast iron lining above fire pot adds protection to body. Latest type draw center grate, made extra heavy for years of service.

Attractive in appearance, with bright, snappy nickel plated trimmings and foot rails, and mica door that radiates the firelight out into the room. Good materials and excellent workmanship make this a first class stove. Ashpan and ash chutes are furnished (many makes do not have these, so that removal of ashes is a dusty, mussy job). Shaker door in ash door.

Cut-away view shows the arrangement and operation of the two hot blasts of the PHOENIX heater. The air enters through a draft below the feed door and is heated before it passes into the fire chamber through small openings above the fire pot. A hot blast tube takes in air through the stove top. As the heated air from these two drafts unites with the smoke and gases in the fire chamber it causes them to burn fiercely, greatly increasing the ordinary heating power of the coal. The hot blasts convert into heat the smoke and gases which usually escape up the chimney and are wasted.

Big stocks and prompt shipment from our foundry at Newark, Ohio. Freight charges amount to little no matter where you live. The approximate freight for 150 miles is 95 cents; 300 miles, $1.29; 500 miles, $1.70.

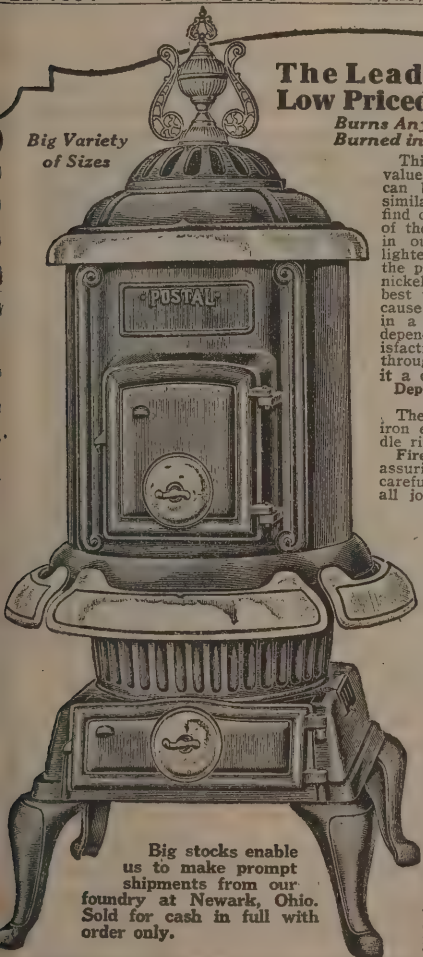
The Leader of All Low Priced Heaters

Burns Anything That Can Be Burned in Any Heating Stove

Big Variety of Sizes



This heater offers you the best value that a small amount of money can buy. Match it with others of similar size and weight and you will find our prices very attractive. Made of the same quality materials we use in our more expensive stoves, but lighter in weight. We have kept down the price by using just a few simple nickel plated trimmings. One of the best values we offer this season, because it gives you everything needed in a heating stove—pleasing style, dependable construction, assured satisfaction in heating and keeping fire through the night—at prices that make it a dominant value.

Dependable Construction—Efficient Heating Service

The whole stove is made of cast iron except the upper drum and middle ring, which are steel.

Fire pot is made of tested cast iron, assuring long service. Steel body is carefully fitted and securely bolted at all joints. Fire easily controlled by screw draft in ash door and check draft in feed door. Draw center grate furnished to burn hard and soft coal, coke, wood and corn cobs. Ashpan is furnished. Removable lid opening in top to feed hard coal when magazine is used. Be sure to buy a size large enough to heat your rooms without firing hard in cold weather. **Self feeding magazine can be furnished only for the three larger sizes.** If self feeding magazine is wanted, add $2.75 to price. We do not furnish magazine for 22F1592 or 22F1591. At our low prices you can afford to buy one of the larger sizes.

Heating capacities. Be sure to order a stove large enough. Stove 22F1591 will heat only a small bedroom. Stove 22F1592 will heat a medium size room. Stove 22F1593 will heat a large room. Stoves 22F1594 and 22F1595 will heat several rooms.

Freight charges amount to little compared to the saving you make in buying this heater from us. Estimated freight charges on the Postal Heater for 150 miles are 55 cents; 300 miles, 74 cents; 500 miles, $1.31.

Big stocks enable us to make prompt shipments from our foundry at Newark, Ohio. Sold for cash in full with order only.

Open Front Fireplace Style Heater

$17.50 and up

Special Low Price

In 1744 Benjamin Franklin described this type of stove in his "Gazette." He had invented it in 1742 and called it the "Pennsylvania Fireplace," which saved fuel, heated all the room, and had the same principle as the hot air furnace of today. It soon became as popular as the man and became known as the "Franklin Stove." With pride we have named our "Gem" after Benjamin Franklin, the originator and inventor of this type of stove, that for nearly two centuries has continued in high favor with those who like an open fire for heating. These stoves are just as popular today as ever and are coming into more general favor throughout the country as people become acquainted with their advantages. They have in many cases replaced the old style built-in fireplaces. Well made, strong and durable. The top, bottom and front frame are cast iron, the sides and back are heavy steel. Large fire chamber has dumb style grate. Blower draft door is made to fit both the upper opening above the fire and the lower opening in front of grate, making it unnecessary to have two doors. The fire can be easily regulated and controlled by means of this draft door. Urn has removable enameled water bowl. Large ashpan. **Shipped from our foundry in Newark, Ohio. A Common Sense Cottage Heater

Made in two sizes

For burning wood only, and for coal and wood. Keeps fire all night.

This is not a big stove to heat several rooms, but it will prove very satisfactory for heating a large room, or two rooms that have a large opening between. **Notice the measurements and order a stove large enough for your requirements.**

Solid cast iron from top to bottom, made in an up to date style. All parts are carefully fitted and strongly bolted. Good workmanship and tested cast iron combine to make this a very satisfactory stove in every respect. Coal fire box has draw center grate and heavy cast iron linings. Will stand steady firing and intense heat. Heat deflector in upper back side rolls the heat back and holds it down, consuming the smoke and gases. Wood burning fire chamber is large size with good size feed door opening in front and right side for admitting large and irregular chunks and knots of wood. Front feed door measures 15x8 inches. Large feed door on right end measures 11½x8 inches, for feeding large chunks of wood, etc. When ordered for burning wood only the coal fire box and bottom grate are not needed, therefore are not furnished. Fire box length for wood, 20 and 22 inches, according to size of stove. Ashpan is furnished with coal and wood style only.

Solid cast iron from top to bottom. Do not confuse with heaters similar in appearance made with a sheet steel body.

Sold for cash with order

Main top has swing off nickel plated cover and one 7-inch cooking lid. A very desirable feature. Nickel plated parts are, swing cover, Mica frame, hearth under ash door, front top band and draft dampers. Smoke guard is hinged inside the feed door opening to prevent the escape of smoke into the room when feed door is opened.

Shipped blackened and polished, ready to set up and use. Both sizes take 6-inch stovepipe, which can be connected either on top or back of heater. **Shipped from our foundry at Newark, Ohio.**

Built for Years of Hard Service

Will stand the hard firing and rough usage usually expected of this kind of stove.

For large rooms, stores, halls, business places, garages, depots, churches, schoolhouses, homes, factories and machine shops.

An ideal heater if you have large space to heat.

This big stove is truly a big value at the very low prices we are able to make you, because you buy direct from our own factories.

Burns any kind of coal—hard coal, coke and even the cheapest grades of soft coal, siftings and slack. Solid cast iron, strongly bolted, reinforced and strengthened. One of the best coal heaters made. There is practically no wear out to the fire pot, and once it is hot the stove keeps hot; the heat does not go up the chimney. You get full benefit from every pound of coal you use.

Easily regulated to any amount of heat you want. Draw center grate is made extra strong and heavy. Large ashpan is furnished. Top has removable lid.

Be sure to order a stove large enough to heat your space properly.

Two smaller sizes take 6-inch pipe; two larger sizes take 7-inch pipe.

The oval shape and extra long fire chamber give this stove some distinct advantages over round body heaters. Holds a big bed of fire, making it easy to maintain steady and uniform heat. Big chunks of wood that would have to stand on end in other stoves can be laid on the side in this stove, so that they burn properly. Will heat your rooms from floor to ceiling comfortably in the coldest weather.

The oval fire pot is shaped very similarly to the fire box in a cooking range, but is much larger. Built to stand hard firing and last for years. The two-bar heavy cast iron duplex shaking grates are the most practical combination grates for burning any kind of fuel—hard coal, soft coal, coke, wood and corn cobs.

Hot blast smoke and gas consumer make this stove especially desirable for burning soft coal.

A quick and powerful heater. All joints fitted and bolted securely. Heavy gauge polished steel drum around fire chamber. All other parts are made of tested cast iron. Extra heavy fire pot and duplex grates. Extra large feed opening in top. Doors and dampers are carefully fitted to insure positive control of fire to any heat wanted. Stove is attractively trimmed and ornamented with nickel plated parts. Feed door fitted with mica windows which radiate the firelight into the room.

Heat, Cook and Bake With the Same Fire

Priced Lower Than Ever

Get the full use of the fuel you use for heating purposes. This combination heater, cooker and baker extracts the full heat from your fuel (coal, wood or corn cobs) without waste. Besides, you can use the same fire for cooking or baking without extra effort or another stove! Think of the saving—and the convenience. Thousands of homes have found comfort and satisfaction with this wonderful combination outfit. Especially do we recommend it for people whose homes make consideration of space economy necessary, as well as the fuel economy. This heater gives both. Very desirable for summer cottages. This stove will do the work as quickly and as well as any cook stove and in addition furnish heat in colder weather.

Strongly made of cast iron. Top has two lids and removable center piece. Two ornamental grates cover the top and can be turned to the sides when cooking. Oven is a dependable baker. Fire box burns coal, wood and corn cobs. Holds fire all night. All sizes take 6-inch stovepipe.

22F1760

Made in one popular size. Burns wood 18 to 20 inches long.

The Housewife's Choice of All Low Priced Wood Burning Heaters. Burns Wood and Corn Cobs. Will Not Burn Coal. Holds Fire All Night

A crackling wood fire set going in a hurry, a big dry wood chunk thrown on a few minutes later means a comforting warmth that has no substitute for the friendliness wood fires give in the winter. The chief feature of this stove is the large front feed door, big enough to take in good size chunks and blocks of wood. There is also a removable lid under the swing top so that fuel can be fed through this opening when desired. This is one of our best sellers and we recommend it as your selection.

Body is made of heavy gauge uniform blue steel bolted and cemented airtight to the cast iron top, bottom and front. Measures inside, 21x14½ inches. Floor space, 18½x26 inches. **Total height of stove to urn base, 32 inches.**

Main bottom is heavy cast iron, corrugated for burning wood.

Cheerful mica fire door shows the comforting fire.

Front feed door is large enough to take big chunks and blocks of wood. Measures 12x8 inches.

Removable lid under swing top is very convenient for feeding the wood through the opening when so desired and is a good feature for boiling water. The following parts are nickel plated: Swing top, front top band, draft doors, mica frame and foot rail.

Shipped promptly from our large factory stock at Newark, Ohio.

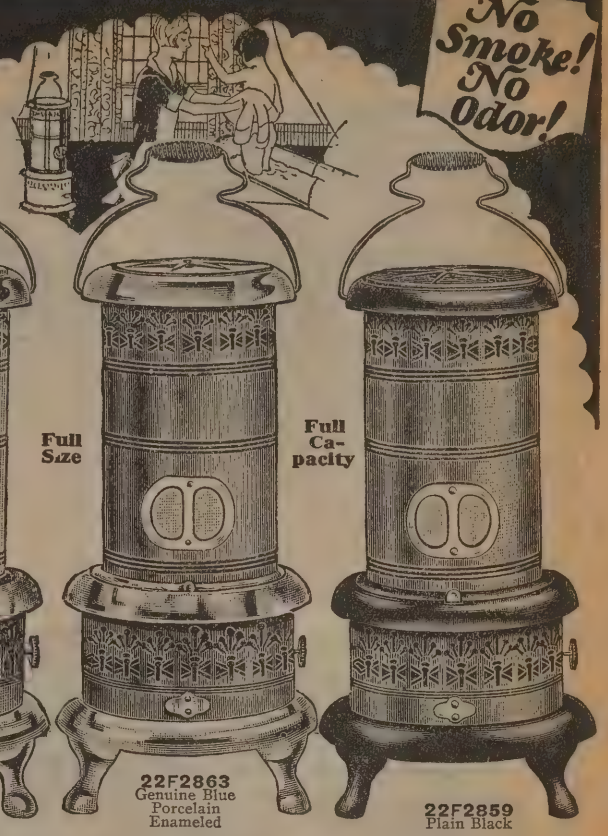
These Low Prices Save You Almost Half



The convenience of these fine oil heaters during the seasons of sudden emperature changes makes them worth much more than their purchase rice. In warmth and fuel economy they assure satisfaction in the days before it's time to light the fire," or in places where heat cannot be had y other methods.

E-Z-Way Oil Heaters are in every way the best made, in their respec-ve classes. **Full size and full capacity.** Do not confuse with the light eight, short capacity heaters sold by many dealers.

Our construction makes them sturdy and substantial. We call particular ttention to the one-piece base and legs, the legs being formed as part the base. This base is much stronger than the ordinary base with olted legs, for it prevents the leg from becoming twisted or getting out alignment. The heater will always stand solid and steady.

Our patented wick stop prevents turning flame too high. A marvel in mplicity and easy lighting. Nothing about our Oil Heaters to get out order. Guaranteed smokeless and odorless.

A style of finish to suit your purpose; otherwise the three heaters are entically made. Will heat a medium size room very comfortably. eight to main top, 24¼ inches. Full size tank, when full, will run heater bout 8½ hours. Takes 8-inch round wick. Shipping weight, 17 pounds. **Shipped from Chicago, Ill. Sold for cash with order.**

CAST IRON RADIANT GAS HEATERS

Colonial Design
Byzantine Bronze Finish
Burns Natural or Manufactured Gas

The charm and beauty of design beams with brightness when in use. Clean and odorless, consuming all the gas fumes, leaving the air in room clean and refreshing.

The burner is scientifically constructed to produce perfect combustion. The air and gas is mixed at one point, allowing an even flow of gas to each opening. Flame can be easily regulated to any degree of heat desired.

Fire clay elements are so constructed that the entire surface is brilliantly and evenly heated, the upper portion glowing as brightly as the lower.

Made in and shipped from our own foundry at Newark, Ohio.

SUNBRITE Fireclay Radiants

Popular Gas Heaters

With Latest and Improved Type Bunsen Burners

The most popular and widely known gas heaters made. Bunsen Tube Burners have separate mixers and orifice openings for each tube, a construction that insures the greatest efficiency and satisfactory operation with a minimum of gas consumption. They give your rooms the temperature you want quickly after they have been lighted. With the especially designed reflector and back construction, they continue to throw off heat a long time after the gas has been turned off.

Made in two styles and a popular assortment of sizes. One style is furnished with clay radiants which turn to a glowing red quickly after being lighted. These clay radiants immediately radiate clean, healthful heat straight out into the room on every side. The other style is furnished with an asbestos back radiation element that serves a purpose similar to the clay radiants described above. The asbestos glows like smouldering moss while the heater is lit. The selection of either type is a matter of personal choice; we recommend either. **Only be sure you have selected a heater large enough to suit your needs. Shipped from our Chicago store and factory at Newark, Ohio.**

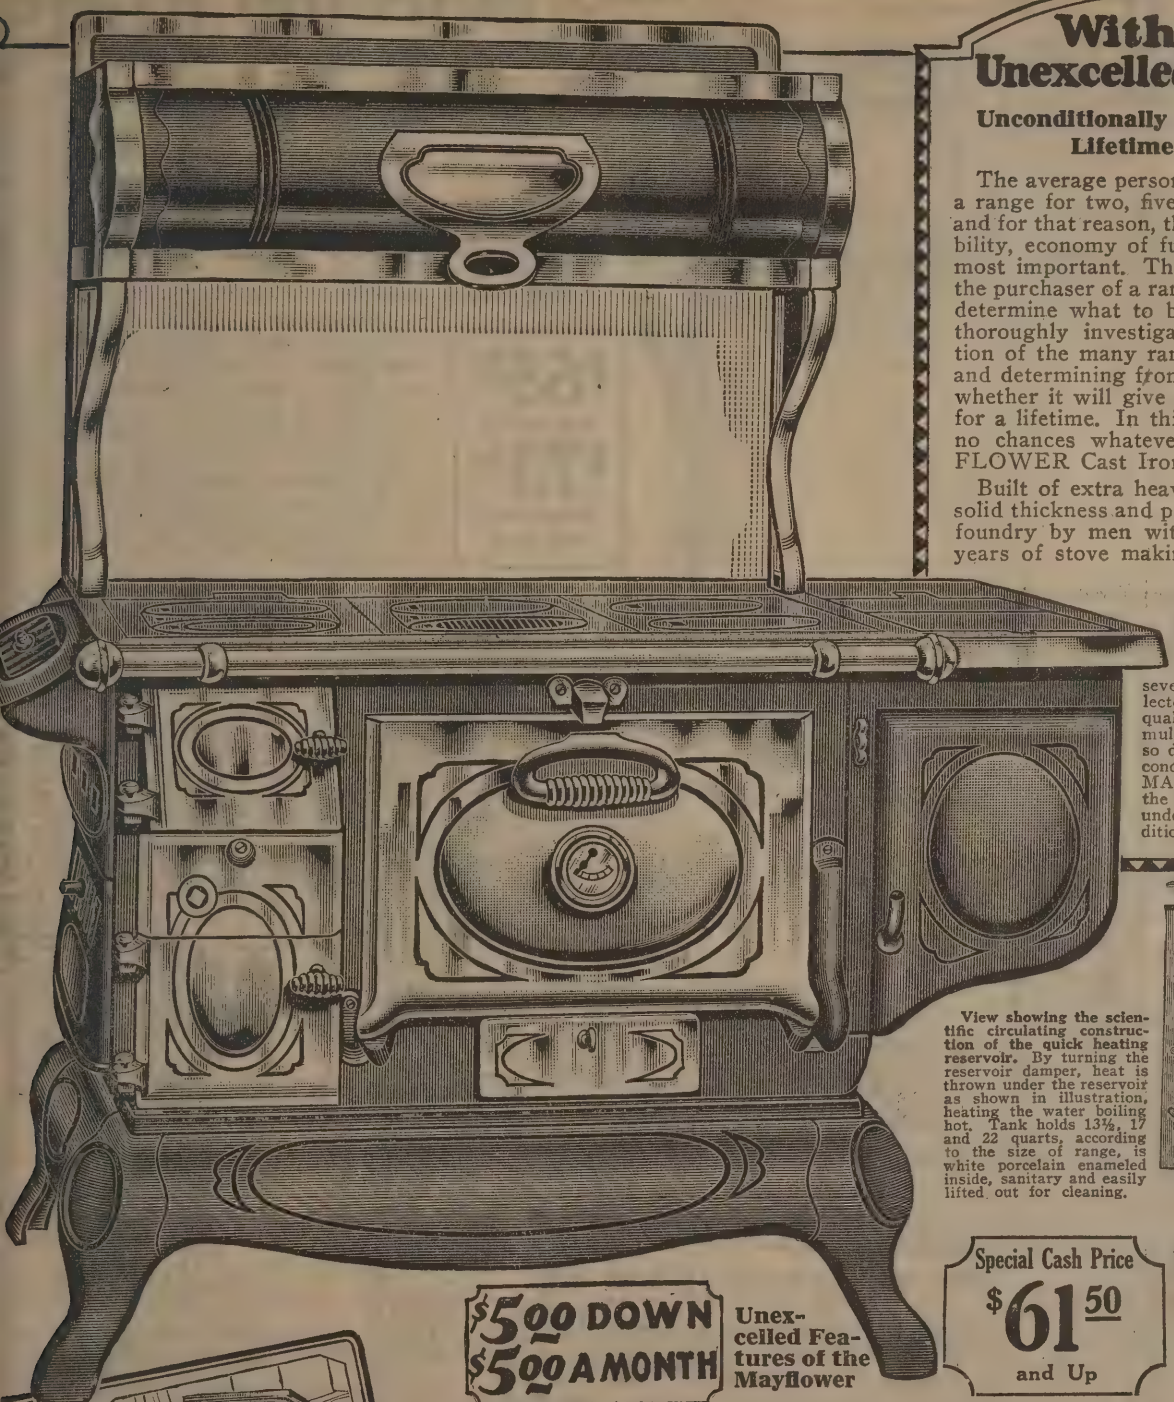
"Our Mayflower"—The Solid Cast Iron Range

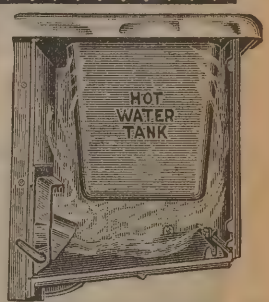


With the Unexcelled Record

Unconditionally Guaranteed for Lifetime Service

The average person does not purchase a range for two, five or even ten years, and for that reason, the question of durability, economy of fuel and efficiency is most important. There is but one way the purchaser of a range can intelligently determine what to buy, and that is by thoroughly investigating the construction of the many ranges on the market and determining from that investigation whether it will give satisfactory service for a lifetime. In this respect, you take no chances whatever with our MAYFLOWER Cast Iron Range.

Built of extra heavy cast iron of one solid thickness and produced in our own foundry by men with more than forty years of stove making experience. All materials used are absolutely the best obtainable, regardless of price. The extraordinary iron used is not the ordinary commercial kind, but is produced by blending several kinds of iron selected for their special qualities and a proved formula that produces a metal so durable that we can unconditionally guarantee the MAYFLOWER to stand the hardest kind of usage under the most trying conditions.



View showing the scientific circulating construction of the quick heating reservoir. By turning the reservoir damper, heat is thrown under the reservoir as shown in illustration, heating the water boiling hot. Tank holds 13½, 17 and 22 quarts, according to the size of range, is white porcelain enameled inside, sanitary and easily lifted out for cleaning.

The front section of cooking top can be easily raised by means of side handle, and automatically held by ratchets at different heights. A very convenient arrangement for broiling meats, toasting or reheating.

Water Front will heat 30 to 52-gallon range boiler to temperature suitable for general household purposes. When ordered with range, will be fitted at foundry unless otherwise ordered.

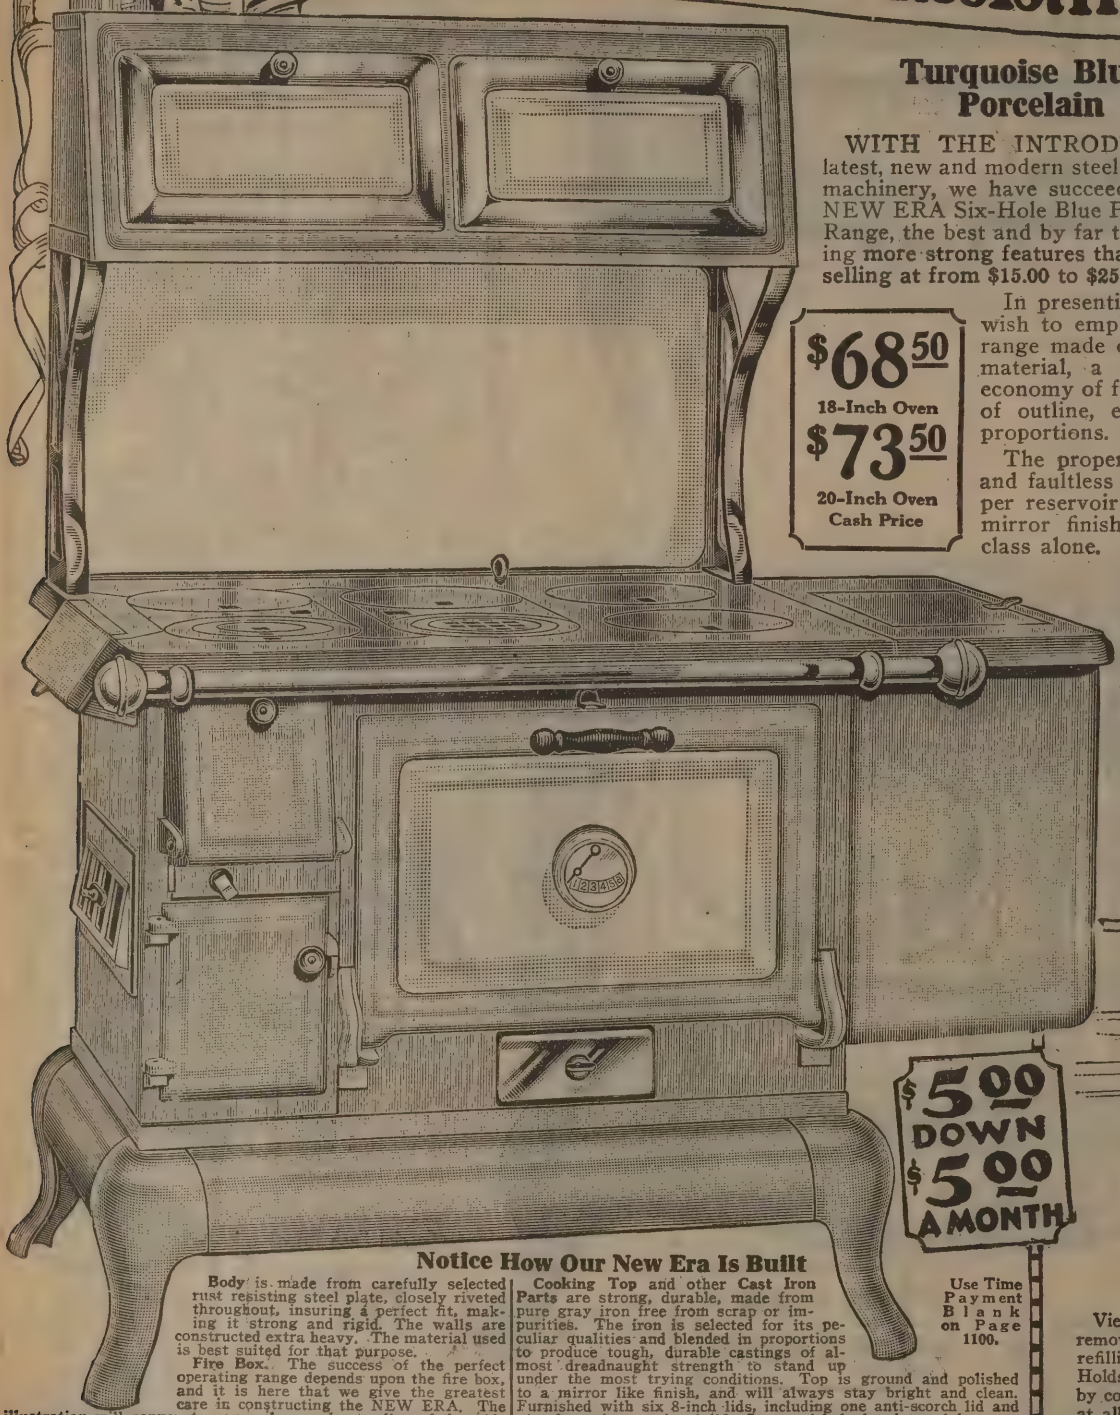
New-Era Porcelain Enameled Rust-Resisting Steel Range



Turquoise Blue Genuine Porcelain Enamel

WITH THE INTRODUCTION of the very latest, new and modern steel range and stove making machinery, we have succeeded in making this, our NEW ERA Six-Hole Blue Porcelain Enameled Steel Range, the best and by far the handsomest, possessing **more strong features than any other steel range selling at from $15.00 to $25.00 more than our price.**

$68.50 18-Inch Oven
$73.50 20-Inch Oven
Cash Price

In presenting the NEW ERA, we wish to emphasize that it is a steel range made of extra heavy tested material, a range unapproached in t economy of fuel, efficiency in baking, gra of outline, elegance of design, genero proportions.

The properly constructed flues, positi and faultless operation, extra capacity c per reservoir tank and easy to keep cle mirror finish polished top, place it in class alone.

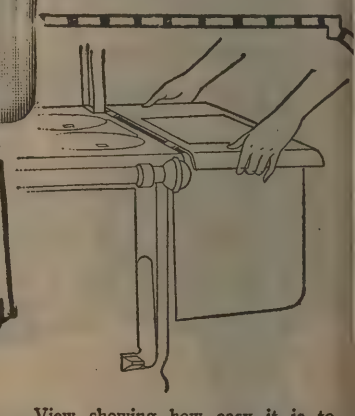
The Genuine Turquoise Bl Porcelain Enamel is fused to steel and cast iron parts at degrees, making a permanent, be tiful finish. Cannot stain from vi gar, acids or fruit juices.

Entire range cleans with a da cloth the same as you clean a m ing bowl.

In addition to these splendid f tures, it is sold direct to our c tomers from our factory at Newa **Ohio, the largest stove factory the world,** at factory cost, with o our one small margin of profit add Our price is about one-third less t what you would pay for a s range of equal high quality bou elsewhere.

Made With 18 or 20-Inch Oven

$5.00 DOWN $5.00 A MONTH



View showing how easy it is to remove the reservoir for cleaning or refilling. Made of pure sheet copper. Holds 32 quarts of water and heats by contact, giving plenty of hot water at all times without interfering with baking.

View showing the deep and wide fire box, with heavy sectional ventilated linings and latest type two-bar easy rolling duplex grate for burning any grade of coal or wood. Scientifically constructed to give the maximum amount of heat from the minimum amount of fuel.

Notice How Our New Era Is Built

Body is made from carefully selected rust resisting steel plate, closely riveted throughout, insuring a perfect fit, making it strong and rigid. The walls are constructed extra heavy. The material used is best suited for that purpose.

Fire Box. The success of the perfect operating range depends upon the fire box, and it is here that we give the greatest care in constructing the NEW ERA. The illustration will convey to you a clear understanding of the wide adaptability of this fire box to every sort of fuel.

The Fireback and all other linings are of proper weight to withstand the hardest kind of usage. The fire box is easily converted from a coal fire box into one for burning wood.

Duplex Anti-Clinker Grate. It is hardly necessary to describe the merits of this grate, because it is our standard construction and too well known to need much praise. It is made in two parts, a slight turn of the shaker crank causes the dead coals and clinkers to drop into the ashpan without disturbing or losing a particle of the fire. The construction is such you can burn hard (anthracite) coal, soft coal, lignite, coke, wood or corn cobs.

The Large Uniform Baking Oven. Made in two sizes, 20x18 and 18x18 inches. Too much cannot be said in praise and in favor of the oven in our NEW ERA Range. It has been constructed with great care and intelligence, so it will bake to perfection with the least possible labor and fuel. You can bake in this oven without shifting the pans.

Cooking Top and other **Cast Iron Parts** are strong, durable, made from pure gray iron free from scrap or impurities. The iron is selected for its peculiar qualities and blended in proportions to produce tough, durable castings of almost dreadnaught strength to stand up under the most trying conditions. Top is ground and polished to a mirror like finish, and will always stay bright and clean. Furnished with six 8-inch lids, including one anti-scorch lid and one three-ring sectional lid. Large nickel plated towel bar.

Oven Door is built for convenience and durability and equipped with dependable thermometer, drops down, forming a shelf, a feature appreciated by all housewives. Fits body of range so perfectly no heat can possibly escape.

Large Capacity Reservoir, holding 32 quarts, made of pure copper. Easily lifted off for cleaning or filling.

Flues are ideal for all fuels, a perfected detail which is worth considering. Both sizes take 7-inch stovepipe.

Ashpan is more than ample, it is oversize.

Warming Closet has extra depth and convenient for keeping food warm after it has been cooked. Doors when open form a convenient shelf.

Feed and Draft Doors, also **Cleanout Doors** are all fitted with exacting fineness. Drafts are carefully tested.

Freight rates on the New Era Range are small, while the saving you make is a large one, especially when you consider the substantial quality.

A Few Reasons Why Our Fairfax Cast Iron Range With Big 20-Inch Oven Is So Desirable

1. Large and roomy warming closet, latest two-door type with white enameled panels.
2. Warming closet, supported by heavy steel brackets, finished in baked-on black enamel that will not wear off.
3. Large pouch feed door for feeding fuel without removing the lids, or for smoothing the fuel out on the fire.
4. Large, wide draft opening and scientific flue construction insure perfect baking.
5. Substantial base and legs add to the attractiveness of the range. Front base strip and legs are silver nickel plated.
6. **Big 20-inch uniformly baking oven** bakes as no other oven can, top, bottom, sides, through and through. The most satisfying results can be had and the most wholesome food can be prepared with the aid of this oven. Measures 20x19x12½ inches.
7. Reliable oven thermometer that tells the heat of the oven at all times.
8. **Big capacity 32-quart reservoir** made of pure sheet copper. Heats the water without disturbing the dampers and does not interfere in any way with the baking. Is detachable and easily removed for cleaning and refilling.
9. **Large and roomy cooking top,** ground and polished to a mirror-like finish. Measures 40½x27 inches with reservoir. Made extra heavy for lifetime service. Has six 8-inch lids, including an anti-scorch lid, and one three-ring sectional lid. Height to cooking top, 31 inches. Silver nickel plated colonial design towel bar.
10. **The large and roomy warming closet** with handsome double drop doors are not to be overlooked. When open form a convenient shelf.

Big Production in Our Own Factory Makes This Low Price Possible~

Illustration at the left shows our **Harvester Cast Iron Range** substantially constructed and guaranteed to give exceptional satisfaction. Made exactly like the Domestic Range shown above, except that the cooking top has six solid lids and entire top is plain black; the reservoir is galvanized iron instead of sheet copper, and the range has less nickel trimmings. In order to hold the price down to the minimum and please those who do not like so much nickel, it is built in rather a plain style. Never was there such a happy combination of High Quality, Quantity Production and Low Price as you will find in our Harvester Six-Hole Cast Iron Range. In every industry there is a leader, sometimes because of big production and low manufacturing cost, sometimes because of Quality, but rarely is the leader famous for all three—Quality, Quantity and Price. In this respect our Harvester occupies the unique position of leadership.

The best efforts of the World's Largest Stove foundry were used in the designing of this range, to make it the greatest cast iron range value obtainable in its price class. Notice the sturdy simplicity of its design. Genuine porcelain enamel splasher back and warming closet door panels. Nicely nickeled towel rod is always useful for drying towels and cloths; also protects user from getting too close to the hot cooking top. This is a most attractive range, and an attractive bargain, too. The fire box, oven and flue construction, likewise all measurements, are exactly the same as given on our DOMESTIC Cast Iron Range shown in the large illustration above.

Never Was a Range of This Quality and Size Priced So Low

$5.00 DOWN $5.00 MONTH

Just "fills the bill" for those who are looking for a range very low in price, good construction and best for the money. Guaranteed to bake perfectly and give absolute satisfaction under the most trying test.

The Midway Steel Range has an oven that is guaranteed to be satisfactory under the most rigid tests and is sure to save fuel. The body is made of good quality steel plate, not as thick as in our larger, more expensive stoves, but will give good service. Sanitary white porcelain enameled splasher and oven door panel nickel trimmed, are easily cleaned; just wipe with a damp cloth. The front legs and base strip and ash and feed doors are nickel plated, which adds to the attractiveness of this range.

Notice These Splendid Features

Body, made of good quality steel plate, every joint welded and bolted to fit perfectly. Absolutely airtight. Big free air flues permit fire to give maximum amount of heat for cooking and baking from the minimum amount of fuel.

Cooking Top, cast iron made the right thickness to give good service. Six 8-inch cooking lids. Entire top finished in plain black. Nickel plated towel bar, very convenient for drying towels, etc.

Oven, made in two sizes, 18x18 inches and 20x18 inches. Guaranteed to do good baking and roasting with a small amount of fuel. Oven door frames are nickel plated and panel is white porcelain enameled. Equipped with reliable oven thermometer that tells the heat of the oven at all times and aids in good baking.

Fire Box, large and roomy and has cast iron linings and heavy duplex grate for burning any kind of coal, coke, wood or corn cobs. Fire box length for wood, 18 to 20 inches, according to the size of range. Ash door and wood feed door are nickel plated, a feature seldom found on this type stove.

Reservoir, extra large capacity, holds 32 quarts. Made of heavy galvanized iron and keeps water boiling hot at all times. Easily lifted off for cleaning or for refilling, a feature seldom found on a range of this type.

Warming Closet, large and roomy, supported by heavy steel brackets that hold closet steady. Latest two-door type, the doors drop down and form a shelf.

Base, strong and sturdy. The front base strip and legs are nickel plated.

Made in and shipped from our own foundry at Newark, Ohio. Our large stock and up to date shipping facilities permit prompt shipment, and the Midway will reach you within 5 to 7 days after we receive your order.

The freight charges amount to next to nothing considering the big saving you make in price. When you have this stove in your kitchen you will be convinced that it pays to save on stoves at Sears.

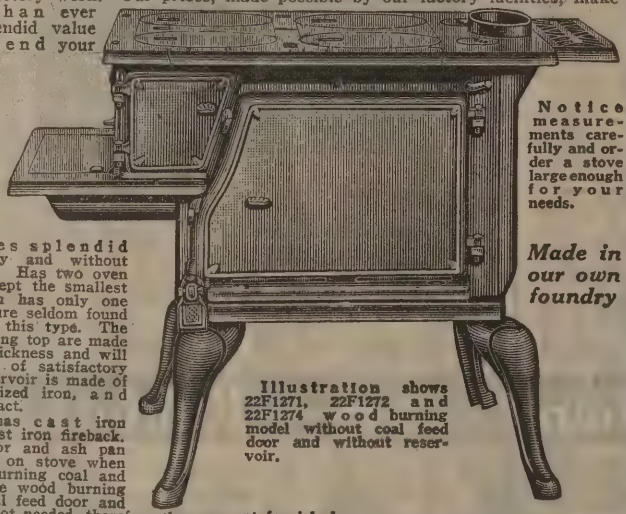
Our prices, made possible by our factory facilities, make it plainer than ever what a splendid value we offer. Send your order today.



Notice measurements carefully and order a stove large enough for your needs.

Made in our own foundry

Illustration shows 22F1271, 22F1272 and 22F1274 wood burning model without coal feed door and without reservoir.

Made of cast iron, every piece and part the right weight and thickness to give good wear. The baking and roasting oven does splendid work, quickly and without waste of fuel. Has two oven doors (except the smallest size, which has only one door), a feature seldom found on stoves of this type. The lids and cooking top are made the proper thickness and will give years of satisfactory service. Reservoir is made of heavy galvanized iron, and heats by contact.

Fire box has cast iron grates and cast iron fireback. Coal feed door and ash pan are furnished on stove when ordered for burning coal and wood. On the wood burning model the coal feed door and ash pan are not needed, therefore they are not furnished.

Mutual Combination Heating and Cook Stove

Suitable for Bungalows and Small Homes
Burns Coal, Wood or Corn Cobs

Every home can use one or two of these stoves. Suitable for heating, laundry work or light cooking, will do satisfactory baking when used in connection with the baking oven shown on page 947 under catalog number 22F5500. The oven uses the wasted heat that would otherwise pass through the chimney.

While small in size, this stove will comfortably heat a good size room. Made throughout of cast iron and heats quickly. The lower front can be lifted off, giving the effect of an open fireplace heater, permitting the glow of fire to light up the room. Hearth measures 8 inches wide and makes a comfortable rest for warming the feet. Top measures 10x21 inches and has two full size, 8-inch lids, a desirable feature for cooking.

As a laundry stove, it has no equal. Top is big enough to accommodate a big wash boiler. Fuel can be fed through the upper front door, which measures 3⅛x7⅛ inches. This arrangement makes it unnecessary to lift off the heavy wash boiler for replenishing the fire.

While low in price our Mutual "All Purpose" Stove will give you years of satisfactory service, as it is made throughout of the best cast iron. The coal fire box measures 7x13 inches. When wood only is used, the coal fixtures are omitted and the fire chamber will take wood 16 inches long. Economical in operation, requires little attention, and the smooth castings make it easy to keep clean. Stove measures 20⅛ inches high, floor space 20x23 inches, takes 6-inch pipe. Shipping weight, 100 pounds.

Our Wonder Laundry Stove *The "Moose"*

This Four-Hole Coal Burning Laundry Stove is the very best coal laundry stove manufactured in any stove foundry in the world. It far outclasses any other laundry stove on the market in every respect, regardless of name, make or price. There is no laundry stove that compares with it either in quality of materials, size, attractiveness of design, special grate features, etc. And as a big, well made, perfect laundry stove we guarantee it to give absolute satisfaction. At our low price it is really a most wonderful value.

It has a very large top, carrying four covers, each fitting in a No. 8 cooking hole. Top measurement, over all, is 21x22 inches, big enough to accommodate a big wash boiler and cooking utensils at the same time. It will also take the new style steel or galvanized iron tubs now in common use. Its arrangement of fire pot and construction of main top is such that the heat is evenly distributed, and it is a quick heater, economical in the use of fuel and a splendid up to date laundry stove, with all the good features of every laundry stove on the market and the defects of none. Combination Gas Range and Kitchen Heater With Full White Porcelain Enameled Front

Can Also Be Furnished in Plain Black With Nickel Trimmings

$5.00 Down $5.00 A Month

Features Not Usually Found on Stoves of This Type

This range is a combination of a kitchen heater and a gas range built into a single body. Very compact, takes up only a small amount of space.

Gas baking oven operates entirely independent from the coal section of the range. Guaranteed to do very fine work, both baking and roasting. It is not a combination oven and cannot be heated by the coal fire. The coal and wood fire cooks and heats, but does not bake. Uses gas only for baking.

You can cook with two fuels at the same time, using all six lids at a time when desired. Has two coal and wood lids and four gas cooking burners, including three full size and one Giant burner.

The coal and wood compartment may be used as an incinerator as well. Burn all your refuse, garbage and waste without odor; an easy, profitable way to dispose of such refuse.

Fire box burns hard or soft coal, coke, short wood, corn cobs, rubbish and kitchen waste. Cooks quickly and will furnish plenty of heat to warm your kitchen in the coldest weather.

E-Z-est WAY
Wick Oil Stove with Patented Double Wall Long Blue Enameled Direct Heating Chimney

Lights like a lamp. Open chimney door, touch match to wick and you are ready to cook.

Simple and easy to change a wick.

E-Z-est-Way Wick Oil Stoves with the Double Wall Long Blue Enamel Chimneys continue to grow in popularity and remain excelled for quality, workmanship, convenience of operation and general cooking and baking satisfaction.

The new straight line body design is very attractive, and the casing two-tone color scheme baked-on black and French gray enameled harmonizes with the best of kitchen surroundings. Cleaned with a damp cloth. Sanitary clear glass oil tank has carrying handle. Body of extra heavy stamped steel, very sturdy.

The Square Grates, full length and width of top, provide big, roomy cooking surface. The grates permit the flame to function directly on the bottom of the cooking utensils—right where the heat is needed.

The Unusually Strong Base Shelf between the legs is convenient for placing pans, cooking utensils, and adds rigidity to the stove. It is placed high enough to permit easy cleaning under the stove.

The Perfect Flame Control prevents turning the flame too high and eliminates the continuous fussing over wick adjustments. The wick cannot creep while the stove is in use.

Convenient cooking height and plenty of room and heat for every utensil.

The gasoline contained in the strong, electrically welded, heavy steel tested tank is forced to the generator and the burners by air pressure, which is quickly and easily supplied with a convenient hand pump, furnished with each stove.

The Tank holds ONE GALLON OF GASOLINE, sufficient fuel to supply one burner for ordinary cooking for about fifteen hours.

The three large and powerful burners are scientifically designed, made of cast iron, and equal the cooking speed of the standard size gas burner. A superabundance of clean, intense heat speedily and forcefully rushes against the cooking utensil to broil a steak, or rush the tardy meal. The heat is directly under the utensil, where it belongs, so that there is no loss of time or heat in cooking. The flame can be easily and quickly regulated to intense, medium or simmering heat as required.

THE HIGH MANTLE SHELF is very convenient for holding cooking utensils, condiments, etc., and to keep dishes warm while preparing the meal. The splasher back protects the kitchen wall from spatterings and is easily cleaned with a damp cloth.

Our Baking Oven — specially designed for this stove—never has there been anything better in which to roast or bake. The heat is evenly distributed to all parts of the oven for perfect baking on both the upper and lower racks. Lifting off the oven gives you a great amount of room for cooking.

Measurements: Cooking top, 18x34 inches; height to cooking top, 31 inches.

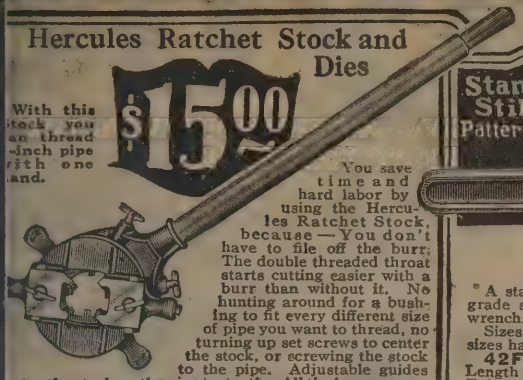
Hercules Ratchet Stock and Dies

With this stock you can thread 4-inch pipe with one hand.

$15.00



You save time and hard labor by using the Hercules Ratchet Stock, because—You don't have to file off the burr. The double threaded throat starts cutting easier with a burr than without it. No hunting around for a bushing to fit every different size of pipe you want to thread, no turning up set screws to center the stock, or screwing the stock to the pipe. Adjustable guides enter the stock on the pipe instantly. All the leverage you like. Telescopic handle pulls out to give you more leverage. No lead screw to reset to cut a long thread. The adjustable guides slide right back on the pipe, keeping exact center; perfect true threading as long as you cut. The dies last much longer. They have several times as many threads, distributing the wear over a long cutting face.

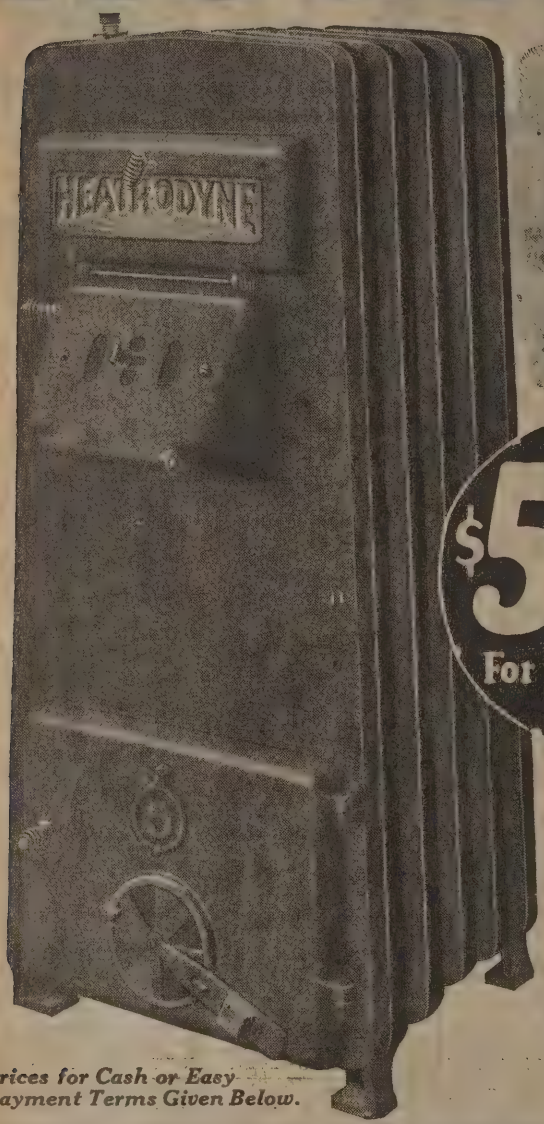
Heatrodyne



$55.50 For the Heater Only

The Super Hot Water Heating System for the Small Home Without a Basement

Our Heatrodyne System of hot water heating, illustrated above, will bring warmth and comfort to every room in your home during the most severe winter weather.

This modern invention permits people owning small homes without basements to enjoy the same comforts of modern heating which were heretofore found only in the larger and more expensive buildings where the boiler could be placed in the basement.

This modern system gives you the double advantage of retaining all of the heat within your rooms, which means a big advantage in fuel economy.

The heater, shown in the large illustration at the left, is located at some convenient place in your home. It may be placed in any room you wish, as it c nicely enameled to harmonize with the decorati your room and, in most all cases, the system c planned so that the pipes are almost entirely cealed.

The heater being placed on the same level with the radiators, as shown in the illu tion above, a basement under your building is u unnecessary to accommodate this system.

The expense of installing this system is prisingly small and, when once installed, yo enjoy the comfortable and even warmth throu every room in your home. You will not have t it down and put it up again every six months necessary with old and out of date heating me

Prices for Cash or Easy Payment Terms Given Below.

The Heatrodyne makes an excellent system of heating for store buildings, garages, shops, dairies, etc., as well as homes; in fact, for any building of moderate size where it is necessary to put the heater on the same floor level as the radiators, the Heatrodyne solves the problem.

Write for Our Estimate

Prices given in the table below are for the heater only.

As no two buildings are alike, it is necessary to prepare a special estimate to determine the cost of the piping and radiators for your particular requirements. Write for one of our Special Heating Information Blanks, send us a sketch of your building and give us the information asked for on this blank. Our engineers will figure up the total cost of a complete Heatrodyne System of hot water heating that we will guarantee to heat your home comfortably in the most severe winter weather experienced in your locality.

Estimates are cheerfully given without obligation to you.

We furnish full plans and instructions for installing so that any handy man can easily do the work.

The Heater

Our Heatrodyne Hot Water Heater is illustrated above. It embodies the most modern scientific improvements in home heating boiler design, giving maximum heating results with minimum fuel and attention.

The bottom and sides of the ashpit are surrounded by water and the heater stands up off the floor on short cast iron legs as shown. It is designed to be placed right in your living room or kitchen and presents an elegant appearance.

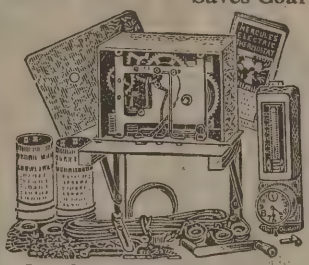
The Hercules Thermostat Heat Regulator Saves Coal



Complete instructions for installing furnished with each outfit

$30.45 Complete

This device will keep the temperature in your rooms regulated to an exact degree throughout the entire winter, and it will open up the dampers on your heating system one hour before you arise in the morning, so that the house will be heated to a warm and comfortable temperature when you are ready to get up.

It saves many trips to the basement. It prevents your rooms from cooling off, as it opens the dampers automatically as soon as the temperature drops below 70 degrees, or whatever you have set it for, and it prevents overheating your rooms, because it closes the dampers as soon as the temperature goes above that degree.

It saves coal.

You Cannot Duplicate This Remarkable Value

Think of it! Our great, big, genuine Hercules Pipeless Furnace priced lower than ever before. The enormous sales volume which we have built up on this furnace through our satisfied users everywhere has increased our production to such an extent that we can now offer you this high grade, genuine Hercules Pipeless Furnace at the lowest price it was ever sold for.

You cannot afford to overlook this greatest pipeless furnace value we have ever offered. A complete modern heating system at little more than the cost of a stove.

Quality Counts

Quality is the big feature of our genuine Hercules Pipeless Furnace. Don't forget that.

You may be sure that when you select a Hercules Pipeless Furnace, you are getting the very best that money can buy.

If you would compare our Hercules Pipeless Furnace with competitive furnaces selling at about the same price, or even higher prices than we ask for this high grade article you would immediately see the superiority of the Hercules.

In the Hercules furnace, there are no skimped sizes, no light weight castings, and no saving of material to cut down the cost. The heavily galvanized inner casing has an inner corrugated lining inside the outer galvanized casing with sheet asbestos insulation between the two, giving maximum heat insulation, which prevents heat loss and cuts down your coal bill. The inner canopy, which carries the warm air out of the heating chamber and delivers it up through the large register, is also of double construction, having a 1-inch air space between the double casing all around.

The furnace inside the casing is full size. The radiator is extra high and extra large, the fire dome is high and roomy, giving ample space for combustion of the fuel, and providing abundance of heating surface. The fire door is amply large to accommodate large chunks of wood, the fire pot castings are heavily corrugated to increase the heating surface.

The furnace has heavy, revolving, triangular grate bars, heavy, corrugated fire pot castings assembled with deep tongue and groove, gas-tight joints. Radiator is heavily constructed, the main body being made in one solid casting. A bottom plate is bolted to this casting and is carefully fitted to it with deep tongue and groove joints.

Other constructional advantages are clearly indicated in the large illustration at the left.

Improved Casings

The Hercules Pipeless Furnace is equipped with latest improved full size drawtight casings. No pounding, cutting or stretching necessary to assemble these casings. They fit right into place and can be drawn up tightly by simply turning a few bolts.

The workmanship at every point is perfect. executed and all doors and working parts are ground to a perfect fit.

A large size water pan is provided in front of the furnace just under the fire door; also a removable cleanout cap is provided just above the fire door so that the radiator can be readily cleaned.

The furnace is easily assembled and easy to install by following the complete illustrated instruction book which we furnish.

ny Handy Man Can Install It

Our Hercules Furnace has a heavily constructed, heavily corrugated fire pot which insures greater durability and heating efficiency. Hercules Furnace casings are made from accurate patterns and they fit perfectly. Extra high and extra radiator; high ribbed fire dome; large flue door.

A most important feature of our Hercules Pipeless Furnace is the heatproof casing. A big factor in keeping down your coal bill. Casings are split and are drawn together with lugs and bolts, making it a very simple matter to install this furnace.

Size to Order

Figure up the total cubic contents of your building and select a furnace of corresponding capacity from the table on this page.

If you live in a real cold climate, or your house is unusually hard to heat; if you want to keep your house unusually warm, or if you will burn wood or soft coal, we would recommend ordering a furnace one size larger. It is always better to have a furnace a little larger than is actually required.

The 18-inch fire pot furnace makes an excellent furnace for small houses, bungalows, etc., but is not recommended for houses having more than five rooms.

If you prefer we will estimate the size furnace you require for your building. Write for our Special Heating Information Blank, fill it out carefully and return it to us. Our engineers will advise you the correct size furnace needed to heat your building and we will also advise you what the freight will amount to if you wish us to do so.

The VOLCANO Pipeless Furnace

Solid Comfort in Your Home All Winter Long

Burns Hard Coal, Soft Coal or Wood

Direct, efficient heating—that is the principle back of the construction of our Volcano Pipeless Furnace, illustrated at left. This furnace is made the same as our Hercules Pipeless Furnace, illustrated and described on pages 958 and 959, except that it has only one casing and the cold air instead of being drawn down around the outer edge of the large re as with our Hercules Pipeless Furnace, is taken in at the bottom of the casing in the bas through screened cold air intakes. This gives the full capacity of the large register for air circulation. By providing a hinged window in the basement to admit fresh cold air, lent results are obtained. A cold air duct can easily be connected to furnace at any time, so you can take the cold air from upstairs should you wish to do so. One of the sir and most efficient pipeless furnaces on the market and is recommended with the assu that it will give you highly satisfactory service.
